PROPOSED CHANGE OF WATER RIGHT(S)

Todd Hines of 3879 Road 6 NW Ephrata, WA 98823 filed Application No. 76427 to transfer four water rights with 1961 thru 1968 priority dates from ground water totaling 2.75 cfs. The purpose of the transfer is to change the points of diversion to existing irrigation wells and create a permissible place of use for the rights. Water will be used at the current place of use generally located south of Lewis Ln between Pump Rd and Sky Ranch Rd approximately one mile southwest of Lake Lowell.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact Western Region office at (208) 334-2190; or see www.idwr.idaho.gov/apps/ExtSearch/WRFiling.asp for a full description of the rights &/or proposed transfer. Protests may be submitted based on the criteria of Idaho Code § 42-222 and 42-203A. Any protest against the approval of this application(s) must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705 together with a protest fee of \$25.00 for each application on or before November 21, 2011. The protestant must also send a copy of the protest to the applicant.

Re: Application for Transfer No. 76427 and Application for Permit No. 63-33491

Dear Mr. Hines:

This office has been reviewing your application for transfer to change a water right and application for a new water right permit referenced above. Based on information submitted for both applications and a GPS (Global Positioning System) location submitted on your behalf by Jim Paskett, both applications referenced above require amendments with regard to the proposed P/D location. I have drafted an amended transfer application for your signature and submittal. Kay Walker, IDWR agent working on your permit application, has drafted an amended permit application for your signature and submittal. The following highlights the major amendments to the applications.

The amended applications address the following:

- The location of the proposed point of diversion (P/D) in Section 10 (permit and transfer application). Jim Paskett submitted GPS location information for the P/D in Section 10. I have enclosed a map of that location for your reference (the "Well Drillers' Locator" map). The coordinates provided indicate the well is in the NE SE NW of Section 10 T2N R3W. Your transfer and permit applications have been amended accordingly.
- The applicant name and contact information (transfer application). Based on the Corporation Warranty Deed submitted by and a conversation with your wife Jamie Hines, I have drafted the amended transfer application in the name of Todd Hines rather than Columbia River Farms. The water rights proposed for transfer will be put into the name of 'Todd Hines' based on the warranty deed. It is more straightforward if the applicant is the same as the water right owner. Also, Jamie and Jim indicated Mike Paskett is no longer available to assist in processing of these applications, in other words, he is no longer a representative for you/Columbia River Farms with regard to these applications. However, if you still wish the transfer application remain in the name of Columbia River Farms, please feel free to change the applicant name accordingly.
- Information regarding other existing water rights for the proposed (new) P/D in Section 10 (transfer application). Research indicates there are other water rights that list the well in Section 10 as a P/D (one of three wells on those rights). Mike Paskett indicated currently no one else is using the well when we met. I included this information on the transfer application. If this is incorrect, please feel free to change Part 1 Section B No. 5e accordingly.

Hines

Please review, make any changes you feel necessary, sign, and return the amended applications to allow for further processing. **Your response, or a request for more time to make your response, must be received within thirty (30) days from the date of this mailing. The transfer application will be rejected and the permit application will be voided without a timely written reply.**

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact myself or Kay Walker at 208-334-2190 if you have any questions. Thank you for your attention to this matter.

Sincerely,

Re: Application for Permit 63-33491

Dear Mr. Hines:

We are in the process of reviewing the above referenced application for water right permit and find we need a couple of items addressed before we go any further. We had sent an e-mail to Mike Paskett on August 5th but did not get a response so will write this letter to you.

- ✓ 1. The point of diversion for the "Big" well in Section 10 is identified under item 3 as being within the SWNW, Sec. 10, Twp. 2N, Rge. 3W. The map indicates that the well is in the SWNE, Sec. 10, Twp. 2N, Rge. 3W. We think that the location on the map is correct and request that you amend the application form to correct the legal description.
- ✓ 2. You are the applicant on this form. We have a letter of consent that states Mike Paskett is authorized to act on behalf of Columbia River Farms in regard to any issues with water rights. However, this consent does not authorize Mr. Paskett to sign the application form since it is not in the name of Columbia River Farms.

I have enclosed a copy of the application, as it was submitted, for your convenience. I have also prepared an "amended" application for permit form that has the correct location of the "Big" well described. As you can see I have not changed the applicant. Please sign the form at the bottom of page 2 and return it to my attention at your earliest convenience. Once we receive the amended application form we will be able to proceed with our review. Please feel free to contact me at (208)334-2190 if you have any questions in regard to this matter.

Sincerely,

Subject: Application for Water Right Permit 63-33491

Mr. Paskett:

In review of the above referenced application for permit we find that we have a couple of items that need addressed prior to further action.

1. The point of diversion in Sec. 10 (for the "Big" Well) is identified under item 3 as being within the SWNW, S10, 2N, 3W. The map indicates that the well is in the SWNE, S10, 2N, 3W. We think the location on the map is correct and request that you amend the application form to correct the legal description.
2. The application form is in the name of Todd Hines. We have a letter of consent that states you are authorized to sign for Columbia River Farms. We are wondering if you want to assign the permit to Columbia River Farms or have Mr. Hines sign the application form. We would need another consent letter authorizing you to sign for Mr. Hines if you wish to pursue the application as it has been submitted. We do have "Assignment of Application for Permit" forms on our internet site. There is no fee needed for that form but it would have to be signed by Mr. Hines since he is the applicant on the current form.

Please let me know how you want to proceed in this matter. I can prepare a new application form for you if you wish. Feel free to contact me at 334-2190 if you have questions in regard to this matter.

Sincerely,

KAY WALKER
Sr. Water Resource Agent
