Mr. Carter,

As we discussed this morning on the telephone, the attached copy of the Water Supply Lease application needs to identify your water right number 63-31882 (a portion of original Right 63-2979) as noted in the 09-30-2011 letter you received. Your wife should also sign the application as co-applicant since she is also listed as a right holder and the signature date updated. The map submitted with the application matches the currently described place of use for Right 63-31882 and will be sufficient with the corrected, completed application.

Please contact me if you have any further questions regarding this matter. Return the corrected application by mail or drop it off at our Western Region office, whichever is most convenient for you. Thank you for your prompt attention to this matter.
