RE: Transfer #77288 – Security Interest/D. L. Evans Bank

Gentlemen:

According to our records, the bank has a Security Interest on rights 43-2492 and 43-12990. These were formerly owned by Lynn and Anita Heward or Relar Farms and were originally associated with 306 acres in Section 12, T11S, R26E and Section 7, T11S, R27E and diverted from a well in Section 12. (Right 43-2492 is for 3.59 cfs and 736 AF on 184 acres. 43-12990 is an expansion right of 43-2492 with no additional diversion rate or volume but allows the irrigation of an additional 122 acres for a combined total of 306 acres.)

Previous transfer 75364, approved in 2009, combined these two rights with 7 other water rights and brought in additional water to the same well in Section 12 for the irrigation of 448.8 acres within a 502-acre permissible place of use (PPU). This meant they were about 53.2 acres short on their 4 pivots in Sections 12 and 7.

This new transfer 77288 dries up about 15.8 acres in Section 26 by removing the end guns from two pivots and combines the 9 rights from the previous transfer with 8 others, shuffling some of their acres around, and ties the well in Section 12 into a system with 7 other existing wells for the total combined diversion rate of 21.81 cfs and 5,111.2 AF for the irrigation of 1418.2 acres in a 1429 acre PPU. They will now be only about 10.8 acres short for all the pivots.

I hope this explains the purpose of the transfer and if the bank is an agreement please have them submit a letter stating so. Feel free to give me a call if you have any more questions or I can be of further assistance.

Sincerely,

Jeanie Robertson
Senior Water Resource Agent
