I talked to Carter about this C/O & he says 96-4016 was for a water system that might not have ever been completed. 96-4143 is a competing claim and there are also other competing claims out there. Cox needs to supply us with more information which they have not done so we will just hold this C/O, make sure the documents or copies of the documents get in the file and the adjudication will have to sort out the ownerships. Carter recommended not changing the ownership or splitting the right. It may be OK to make Cox a present owner depending on WR section policy.
