T10N R18E S25 NWSW

T10N R18E S26 NESE

Application proposes to appropriate a combined 11.1 ac-ft of water from an unnamed stream (tributary to the East Fork of the Salmon River) and groundwater to obtain an aesthetic and stockwater right for an existing pond located approximately 6.4 miles south and 5.3 miles east of Clayton. This application proposes the diversion and use of water tributary to the federally designated Salmon River Wild & Scenic River. The decreed minimum stream flow rights for the federal Wild & Scenic Rivers are subordinate to certain categories of water use and to specific amounts of water use established after the minimum stream flow. The water use proposed in this application will benefit from the subordination provision because it is for storage purposes.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact Southern Region office at (208) 736-3033; or for a full description of the right(s), please see www.idwr.idaho.gov/apps/ExtSearch/WRFiling.asp. Protests may be submitted based on the criteria of Idaho Code § 42-203A. Any protest against the approval of this application must be filed with the Director, Dept. of Water Resources, Southern Region, 1341 Fillmore St, Suite 200, Twin Falls, ID 83301 together with a protest fee of \$25.00 for each application on or before November 7, 2011. The protestant must also send a copy of the protest to the applicant.
