Re: Statement of Completion for Permit No. 95-10706

Dear Mr. Wilson,

On October 12, 2011, the Department received your Statement of Completion "Proof statement" and a \$50.00 license examination fee. However, during our phone conversation today it was apparent that you thought you were filing your proof statement on a water right recently claimed in the North Idaho Adjudication, more specifically a recommended right based on water right license no. 95-9929 for domestic use. There is nothing more that needs to be done on right No. 95-9929, but to wait for it to be decreed by the court into your name.

Your permit to appropriate water no. 95-10706 for commercial use which is also in your name has a proof due date of November 1, 2011. Attached is a pdf version of a new proof statement along with a copy of this permit. Upon receipt of your newly completed proof statement, the department will consider it to be filed timely since you have already submitted the proper license examination fee.

Sincerely,
Darla Block
Technical Records Specialist

Please send your new proof statement to my attention at the following address:
