RE: Water Right Permit No. 37-8502 and 37-20400

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permits referenced above prior to issuing water right licenses. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permits have been developed differently than described on your permits. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permits must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on permit 37-8502:

☒ **Point(s) of Diversion**

Based on the examiner's report, the following elements were developed differently than described on permit 37-20400:

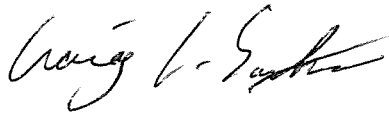

☒ **Point(s) of Diversion**

☒ **Place(s) of Use**

The enclosed Application for Amendment forms depicts the elements of the water rights as they will appear on the licenses when they are issued. Please review the amendment forms carefully. If you concur with the information presented, please sign the forms and return them with the \$200.00 (\$100.00 per amendment) filing fee within 14 days.

If you have any questions, please call me at (208) 287-4916.

Sincerely,

A handwritten signature in black ink, appearing to read "Craig L. Saxton". The signature is fluid and cursive, with the first name "Craig" being the most prominent.

Craig L. Saxton
Water Rights Supervisor
