RE: Assignment of Permit for Water Permit No. 63-12601

Dear Permit Holder(s):

The department acknowledges receipt of the beneficial use field report along with the assignment of permit form for the above referenced water right filed with the department on September 27, 2011. The department has modified its records to reflect the change in ownership and has enclosed a computer-generated report for your records. The next step in the process of a water right is for the department to review the file for issuance of a water right license.

Since proof of beneficial use had previously been submitted along with the field examination fee, you are entitled to a refund of \$50.00. However, on September 30, 2011, Lori Graves of SPF Water Engineering advised IDWR to apply \$25.00 of the total amount paid to the assignment of permit for which no monies were received, and refund the remaining \$25.00 to W & H LLC.

Therefore, the Department will reapply a portion of the fee you already paid under receipt ID C080045 to the assignment of permit, and I will initiate the process to refund the extra \$25.00 you submitted. You should receive a State of Idaho check for \$25.00 within 10 business days under separate cover.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

Darla Block
Technical Records specialist
