Subject: RE: 63-33130 - Sharon & Ron Stutheit: Request to use power records as a measuring device

Craig,

I do not have a problem with them reporting using the power meter. I would request they submit to my office (fax or preferably e-mail) weekly reports of use at the pump. This will help on my end and give them a since of ownership in this agreement.

As to the lockable issue. I have inspected the site and can confirm that it is lockable as installed.

Subject: 63-33130 - Sharon & Ron Stutheit: Request to use power records as a measuring device

Good Morning Rex,

I have a letter from Sharon & Ron Stutheit that was submitted with their proof of beneficial use statement for permit 63-33130 where they request modification of the condition requiring that they install a measuring device, to allow them to use the power meter consumption for measurement. The request (attached) says they spoke with you about this and you were in agreement that it would be sufficient.

I just wanted to confirm that you were in agreement with this and do not have issues if the requirement to install a measuring device is modified/removed.

In addition, it sounds like you are in agreement that the controlling works is lockable and that they have met this condition?

Thanks,

Craig Saxton
