Moreover, the official record for the following water right will be changed to show that diversion and use of water is not authorized because the rights, or portion thereof, are being dedicated to mitigation purposes.

If the specified mitigation right, or portion thereof, is sold, transferred, leased, used on any place of use, or is not deliverable due to a shortage of water or a priority call, then the amount of water authorized for diversion under this right shall be reduced by the same proportion as the reduction to the mitigation rights.

2. Wildlife and recreation storage uses are for a pond.
3. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 01.
4. If the right holder cannot continue to implement this mitigation plan every year for any reason, the right holder shall cease diverting water under this right or the right holder shall implement an alternative mitigation plan that has been reviewed and approved by the department.
5. This Right authorizes the diversion of 8.3 acre-feet to be used for the initial filling of the pond and 3.1 acre-feet for the replacement of losses caused by evaporation.
