Craig,

I just spoke to Betsy Rieffenberger with the Forest Service in Salmon (208-756-5108). She stated that the Forest Service would likely protest the Amendment to Permit when it is advertised. Could you please add a note to the file to contact me or Betsy when the amendment gets to the advertisement stage. I will likely handle the contested case once it is protested. Thanks for being willing to add this to the licensing stack. If you don't get to it for a couple of months, that's okay.
