RE: Permit 75-13989

Dear Ms. Padilla:

I am enclosing three affidavits to affirm the fact that we did use water from Indian Creek Springs during the period July 5, 2001 to June 15, 2006.

I hope these affidavits meet with your approval and you can let me know what we do next to resolve this water matter.

Sincerely,

William Shively
Janice Shively

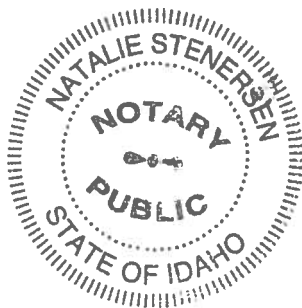

William and Janice Shively
1201 E 1700 N
Terreton, ID 83450

I/We RONALD W. MEADVILLE & ROBERTA J. MEADVILLE testify to the fact that William and Janice Shively did use water from the Indian Creek Springs in accordance with their permit.

As neighbors living full time in the Indian Creek area, we saw the construction of their seasonal cabin from start to finish. Before construction was even started on the cabin, the Shivelys set up an RV trailer to stay in. This trailer provided them with water for domestic purposes from the springs in Indian Creek that is located on their property. With the use of hoses, water was supplied to the trailer so that William and Janice could stay on their Indian Creek property during construction.

William and Janice began construction on their seasonal cabin in May of 2006. This water was used until October of 2006 when the plumbing was completed and water was then diverted to the cabin.

I/We Mark Sawicki testify to the fact that William and Janice Shively did use water from the Indian Creek Springs in accordance with their permit.

William and Janice began construction on their seasonal cabin in May of 2006. I worked for William and Janice helping build the sub-floor for their cabin. (Picture included.) I saw and took advantage of an RV trailer that was set up on their property while I was under their employ. The RV trailer supplied the work force with water for domestic purposes.

This water was used until October of 2006 when the plumbing was completed and water was then diverted to the cabin.

I/We Rob Shively testify to the fact that William and Janice Shively did use water from the Indian Creek Springs in accordance with their permit.

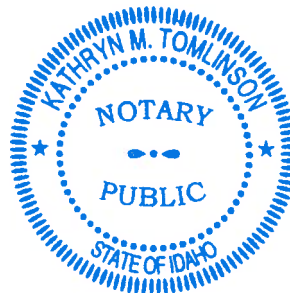

William and Janice began construction on their seasonal cabin in May of 2006. (Copy of cabin "Bill of Lading" included along with picture.) Since their primary residence is over 100 miles away, William and Janice parked an RV trailer at their Indian Creek property to live in while the cabin was being built. (Picture included)

A short pipeline and hose were used to supply the RV trailer with water which was used for domestic purposes. This water was used until October of 2006 when the plumbing was completed and water was then diverted to the cabin.
