Comment: Updated PLS

3. csaxton 9/21/2011 No amendment for POD

Comment: Approved application or Amendment of a permit identifies one of the three permitted PODs as being located in the NWSE, S20. Actually the permit amendment shows that the location written in on the form was originally SWNE, but then that was crossed out and the NWSE was written in. Therefore, this particular POD was permitted for the NWSE. As it turns out, the GPS coordinates actually determined that the true POD location is in the SWNE, S20, which was originally written in and crossed out. The POD is 54 feet away from the boundary between the SWNE and the NWSE. 54 feet is within the margin of error for a GPS point. I recommend licensing 73-12172 with this point of diversion location consistent with the GPS coordinates, but without the need for an amendment.

4. csaxton 9/21/2011 Split Right

Comment: Right 73-7113 split into 73-12171 and 73-12172.
