**REGARDING:** Field Exam

I spoke with Michael Fleming in the month of April, and he informed me that at this point in time, he isn't sure if the fish business is going to continue. He asked that I give him more time to decide and see what happens.

According to Georgia Satterlee's Communication Documentation, she was unable to set a field exam with Mr. Fleming as well. I'm going to wait until August, and then call Mr. Fleming again.
