PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 77-14328

Dear Permit Holder(s):

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. During my review of your proof and water right permit, I found that condition nos. 9 and 10 of this permit may not have been complied with.

Condition no. 9 of this permit states:

"Prior to diversion and use of water under this approval, the right holder shall comply with all fish screening and/or fish passage requirements of the Idaho Department of Fish & Game."

Condition no. 10 of this permit which states:

"Prior to diversion of water under this right, the right holder shall install a lockable device, subject to the approval of the Department, in a manner that will provide suitable control of the diversion."

If these conditions have not been met, I recommend these conditions be complied with immediately and prior to the field examination. Enclosed is a copy of this permit for your information. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office, or at the Department's website at: www.idwr.idaho.gov

If you have any questions concerning the field examination, please contact Sandy Hemenway at the State Office of the Department in Boise, Idaho at 208-287-4920.

Sincerely,

Darla Block
Technical Records Specialist
