IN THE MATTER OF PROTESTS AGAINST APPROVAL	)	PROPOSED
	)	
OF APPLICATION FOR PERMIT NO. 36-7739 IN	)	MEMORANDUM DECISION
	)	
THE NAME OF BUCKEYE LAND COMPANY	)	AND ORDER
	)	

On August 1, 1977, the Buckeye Land Company, a partnership, filed an application with the Department of Water Resources to appropriate 12 cubic feet per second of the waters of Billingsley Creek, tributary to the Snake River, for the purpose of fish propagation. The water to be diverted within the SE1/4-NE1/4, Sec. 11, Twp. 7S, Rge. 13E B.M., Gooding County and conveyed via the Buckeye Ditch for use within the SW1/4NW1/4, Sec. 34; and the SE1/4NE1/4, Sec. 33, Twp. 7S, Rge. 13E B.M.

Notice of the application was published in the Gooding County Leader on August 18 and 25, 1977.

On September 1, 1977, protests were received from Richard Cook, President of Sands Ditch Waterusers Association and from Dale Boyer. Additional protests were received from the Idaho Department of Fish and Game, O. S. Smith and Ethel Smith, Edward C. Shokal, R. W. Stevens, Dale Boyer and Paul E. Watkins.

A hearing in the matter was held in Twin Falls, Idaho on February 22, 1978. The applicant was represented at the hearing by Donnie McFadden, a general partner in Buckeye Land Company and by John Rosholt, attorney. Protestants present at the hearing were Dale Turnipseed in behalf of the Idaho Department of Fish and Game; Paul E. Watkins; Dick Cook, President of the Sands Ditch Waterusers Association; Dale Boyer; and Edward C. Shokal, representing himself and R. W. Stevens.

The main issue set forth by protestants at the hearing was whether or not this application would result in injury to existing water rights. Protestants maintained that flows in the Buckeye Ditch were less than 12 cubic feet per second applied for and that this application would result in diversion of additional water from Billingsley Creek to the detriment of existing rights. The Department of Fish and Game protest was based on possible damage to fish and wildlife habitat in Billingsley Creek due to the diversion of additional water.

It was the applicant's testimony that his intention was to use the

MICROFILMED

water for fish propagation which is presently delivered to the Buckeye Ranch under decreed rights for the purpose of irrigation. Estimates of the amount of water flowing in the Buckeye Ditch were given by both applicant and protestants; however, no actual measurement information was offered in evidence.

Based upon information presented at the hearing, information contained in the Department's records and the hearing officer's understanding of the law, the following Findings of Fact, Conclusions of Law and Order are proposed.

FINDINGS OF FACT

1) A total of 22.66 cubic feet per second of water is decreed to be delivered thru the Buckeye Ditch in the decree of Billingsley Creek water rights: New International Mortgage Bank vs. Idaho Power Company.

2) The applicant's share of water rights decreed through the Buckeye Ditch is 12 cubic feet per second.

3) There is no measuring device at the head of Buckeye Ditch.

CONCLUSIONS OF LAW

1) There is water available for fish propagation purposes at least during the time the water is diverted by the applicant to satisfy his existing irrigation rights.

2) During the period of time that water is not needed for irrigation, the applicant is entitled to appropriate the waters of Billingsley Creek subject to prior rights.

ORDER

IT IS, THEREFORE, HEREBY ORDERED that Application for Permit No. 36-7739 is APPROVED subject to the following conditions:

1) Use of water under this permit is subject to control by the water-master of State Water District No. 36-A, Billingsley Creek.

2) A measuring device of a type approved by this Department shall be permanently installed and maintained as part of the diverting works.

3) The issuance of this permit in no way grants any right-of-way or easement across the land of another.

4) Return water shall be treated to insure that the effluent meets intra-state stream water quality standards.

5) Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

MICROFILMED

6) Proof of construction of works and application of water to beneficial use shall be submitted on or before the date indicated on the final order.

Dated this 21 day of September, 1983.

Re: Administration of Water Rights in Water District 130
Permits 36-7739, 36-7740, 36-7742, 36-8335, 36-8728 and 36-8730
(all in the name of Buckeye Farms, Inc.)

Dear Glen:

I understand that you have assumed Norm Young's responsibilities following his retirement February 28. Norm and I were in the midst of discussions regarding permits 36-7739, 36-7740, 36-7742, 36-8335, 36-8728 and 36-8730. I wanted you to be aware that I am close to completing my review of the six permit files and will send you the letter which I had discussed with Norm regarding the conditions he was proposing for the permits.

The discussion arose because the Water Resource Coalition which I represent has been in the process of cataloguing water right records for spring users in Basins 36 and 37, indicating where administration of the recorded water right is limited by subordination provisions, self-limiting provisions, combined diversion limits, re-use issues, and diversion capacity limitations. These are significant issues for the administration of ground water and surface water rights within Water District 130 and the data will be provided to augment North Snake Ground Water District's comments for Water District 130.

Gentlemen:

We have reviewed the information submitted in connection with the permits diverted from Hunt Ditch and have revised the licensing amendment for Permit 36-07741. I have attached the revised amendment for your review and signature if you agree with the changes.

We now propose to license Permit 36-07741 for 24.0 cfs during the non-irrigation season, and 22.45 cfs during the irrigation season. We have changed the conditions of approval to clarify these changes – see condition nos. 3 and 4 on the second page of the amendment form. We have also revised the maximum diversion volume under this right, showing 2 separate volumes for the 2 seasons of use. Please note that we will be adjusting the conditions on the proposed license for 36-08729 once we have received the signed amendment for 36-07741.

We would like to get the licenses for Buckeye Farms issued right away, so we are faxing this information to each of you. If you are in agreement with the proposed changes, please sign the amendment form and return the signed form to us through the mail, so that we have a signed form for our file. Please note that the amendment fee for this form was receipted along with your other amendments submitted on May 10th.

If you have any questions in regard to the changes we have made, please feel free to contact me at (208)327-7944.

Sincerely,

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, Karl J. Dreher, of the Department of Water Resources hereby approve the above Application for Amendment for Permit No. 36-07741 with the following:

CONDITIONS OF APPROVAL

1. Use of water under this water right will be regulated by the watermaster of State Water District No. 36A.
2. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion.
3. Rights 36-00001, 36-00002, 36-08729 and 36-07741 when combined shall not exceed a total diversion rate of 22.45 cfs from March 15 through November 15.
4. Rights 36-08729 and 37-07741 when combined shall not exceed a total diversion rate of 24.0 cfs from November 16 through March 14.
5. Use of water under this right shall be non-consumptive.
6. Water is delivered through Hunt Ditch.
7. The right holder shall not divert water at a rate exceeding what is reasonably necessary for the beneficial use authorized by this right.

RE: Water Right Permits 36-07740, 36-07741, 36-07742

Dear Permit Holder(s):

I previously forwarded to you Applications for Amendment so that you could amend your permits to depict your water rights as they have actually been developed.

As of this date, I have not received the amendments. If I do not receive the amendments within 10 days, Water Right Licenses will be issued for less than could have been allowed. Please note that the filing fee for these amendments is **\$50.00 per amendment**.

If you have any questions regarding this matter, please call me at 208-327-7944.

Kay,

Let Simpson know that if there is evidence that they have diverted and beneficially used the permitted rate during the authorized development period, then it should be recognized on the licenses. Otherwise, it cannot be included on the license. We can discuss it if you want.

Hi, Shelley... John Simpson called me this morning about the licenses for Buckeye. He has the amendments in his possession and will turn them in after we respond to this: Buckeye wants the full permitted amount of water during the non-irrigation season. They concur with the limitation during irrigation season but wonder why they can't have full amounts during non-irrigation season. I told him I would discuss with you and get back to him. He said he could come in for a brief meeting on Monday morning if we want. Sure would make these rights complicated to have different amounts for different times of the year... What do you think? Can we discuss? Kay

RE: Water Right Permit Nos. 36-07739, 36-07740, 36-07741, 36-07742, 36-08335, 36-08728, 36-08729, and 36-08730

Dear Permit Holders:

The Department of Water Resources is reviewing the above referenced permits prior to issuing water right licenses. By issuing licenses, the Department confirms the extent of development that has been established in compliance with the terms of the permits. The examiner who verified your water uses reported that certain elements of the permits have been developed differently than described on the permits. Changes that do not increase the authorized use of water under the permits can be requested and approved in accordance with Section 42-211, Idaho Code. Before licenses can be issued, Permit Nos. 36-07740, 36-07741, 36-07742, 36-08335, 36-08728, 36-08729 and 36-08730 must be amended to depict the water uses as actually developed.

Based on the examiner's report, the following elements were developed differently than described on the permits:

☒ **Places of Use**

☒ **Other – Nature of Use**

The enclosed Application for Amendment forms depicts the elements of the water rights as they will appear on the licenses when issued. Please review the amendment forms carefully. If you concur with the information presented, please sign the forms and return them with a \$50.00 filing fee, per amendment form, within 14 days.

→ We have also enclosed a "Draft" license for Permit No. 36-07739 for your review. This is the only permit that did not require an amendment.

If you have any questions in regard to the amendment forms or the draft license, please feel free to call me at 208-327-7944.

RE: License Recommendations

Date: February 20, 2002

.....

In review of these permits for licensing, we found that the SRBA decreed rights on the same sources of water had specific limits in regard to combined Rts. 36-00001, 36-00002 and 36-00003H. The SRBA limits all 3 rights when combined to 28.55 cfs. We tried to figure out where this limit came from but only determined that it was done during a settlement conference of the SRBA.

We discussed this with Steve Clelland, as the agent who recommended these claims for decree. Steve stated that he was not included in the settlement conference and when he received the partial decrees issued for these rights, he tried to find out where the 28.55 cfs derived from, and he never got an answer. Steve believes that the right holders received more than an inch per acre under these rights. In review of the rights I found the following:

Rt. 36-00001	Riley Creek	12.00 cfs
Rt. 36-00002	Riley Creek	10.45 cfs *
Rt. 36-00003H	Billingsley Creek	<u>11.90 cfs</u> **
	TOTAL =	34.35 cfs

*Includes 5.96 cfs for conveyance loss

**Includes 6.10 cfs for conveyance loss

These rights are used conjunctively on a 761-acre place of use. If you subtract the conveyance losses from them it leaves 22.29 cfs for 761 acres, which comes out to be 0.029 cfs per acre that is consistent with Steve Clelland's thought on this matter.

Since the limitation of 28.55 cfs appears to only deal with the irrigation of the place of use identified under these rights, we are not including this limitation on the proposed licenses. We are convinced, through our review, that the right holders are making beneficial use of the 34.35 cfs that they have been diverting since the New International Mortgage Bank vs. Idaho Power Company decree.

Comment: Recommend we allow 11.9 cfs under this right - Application states: Same 12 cfs is presently decreed to the land for irrigation and stock water purposes - (Idaho Power vs. New International). Right 36-00003H was recently decreed to Buckeye Farms in the amount of 11.9 cfs. As far as we could tell, their right has always been 11.9 cfs rather than 12.

RE: Overlap with Right 36-00003H

=====
Permit 36-07739 authorizes Buckeye Farms, Inc., to develop a right to 12.0 cfs from Billingsley Creek for fish propagation purposes. The water is to be conveyed through the Buckeye Ditch.

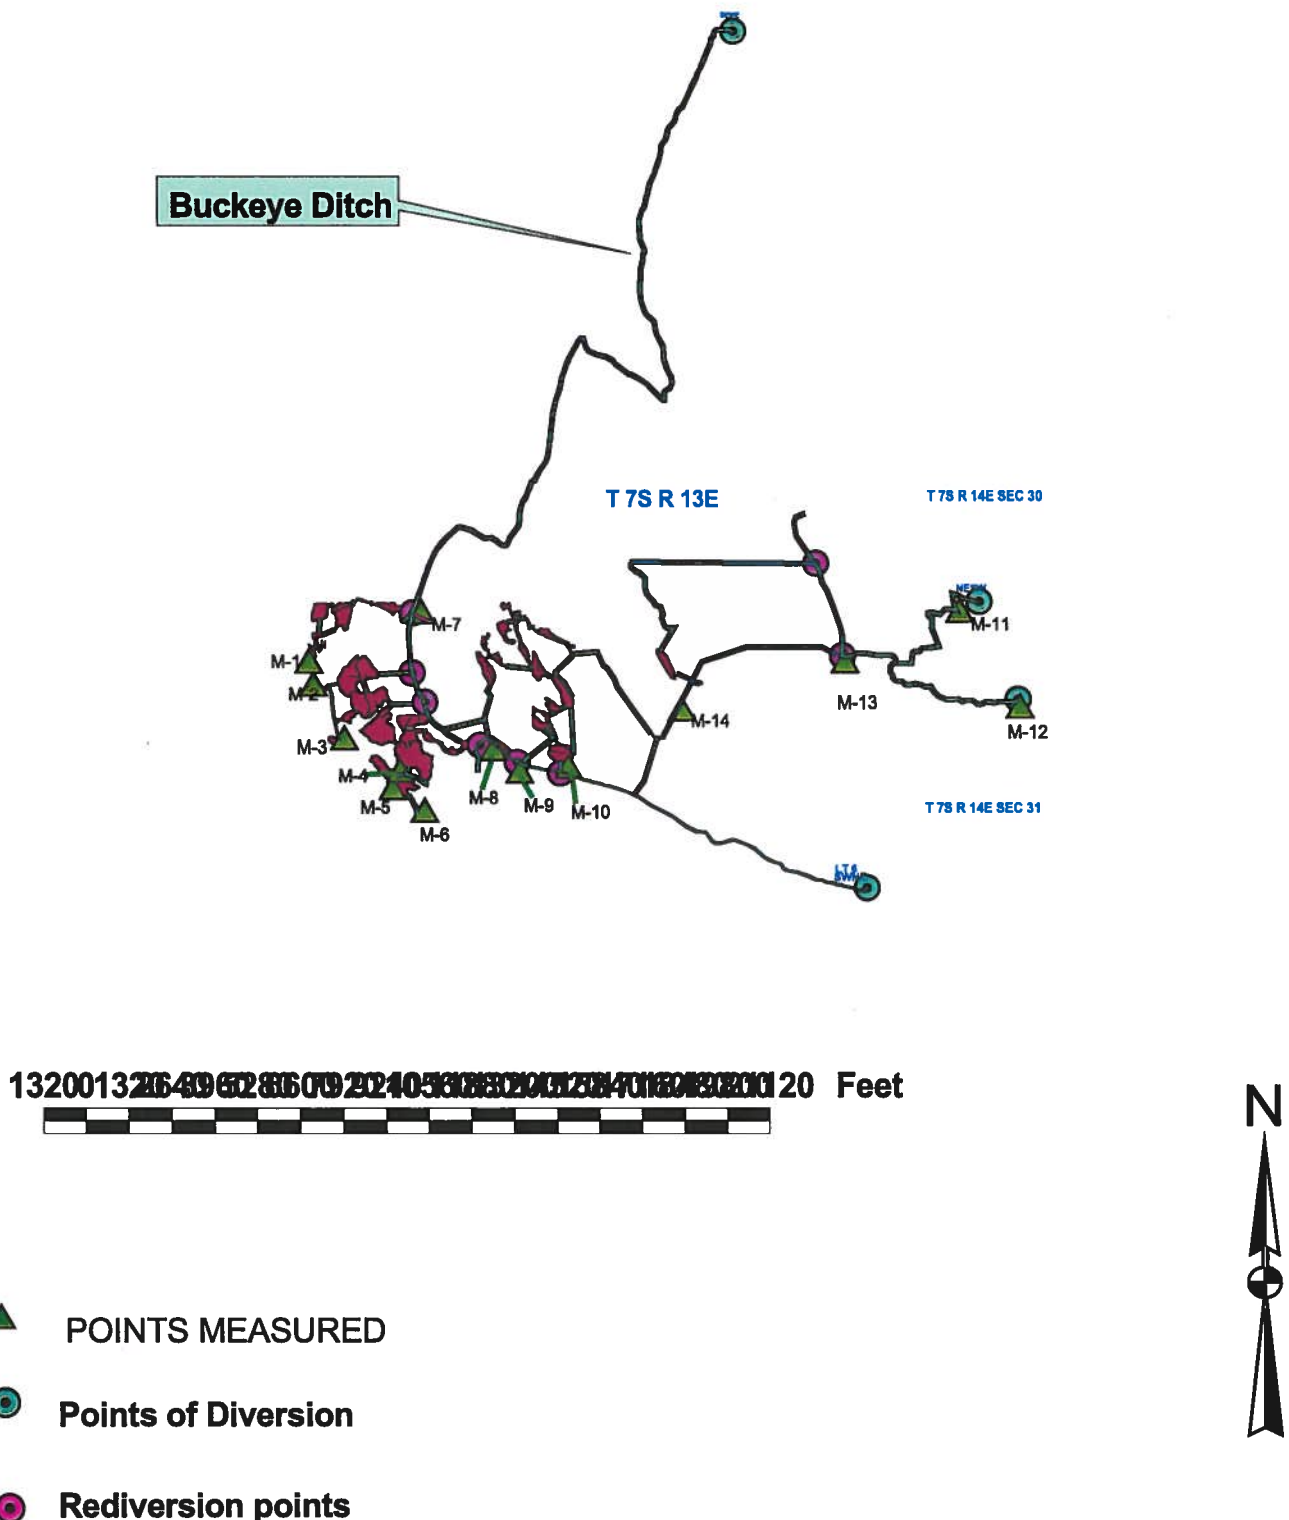

In the 1983 Proposed Memorandum Decision and Order, later adopted as the final decision, there is an indication that the 12.0 cfs allocated to 36-07739 may be the same 12.0 cfs claimed from Billingsley Creek by Buckeye Farms, Inc. for irrigation purposes. The 12.0 cfs irrigation claim is SRBA claim A35-00003H. The field examiner for 36-07739 also presents evidence that the 12.0 cfs is the same water for both rights. He states, " After use for fish, water is either pumped into sprinklers or runs into recreational ponds on the Buckeye Ranch."

The recommendation prepared by IDWR for SRBA claim 36-00003H suggests the right should be 8.37 cfs, not 12.0 cfs. The 8.37 cfs is broken out as 4.48 cfs at the field headgate and 3.89 cfs for conveyance loss. The recommendation faces objections filed by the United States and by the claimant.

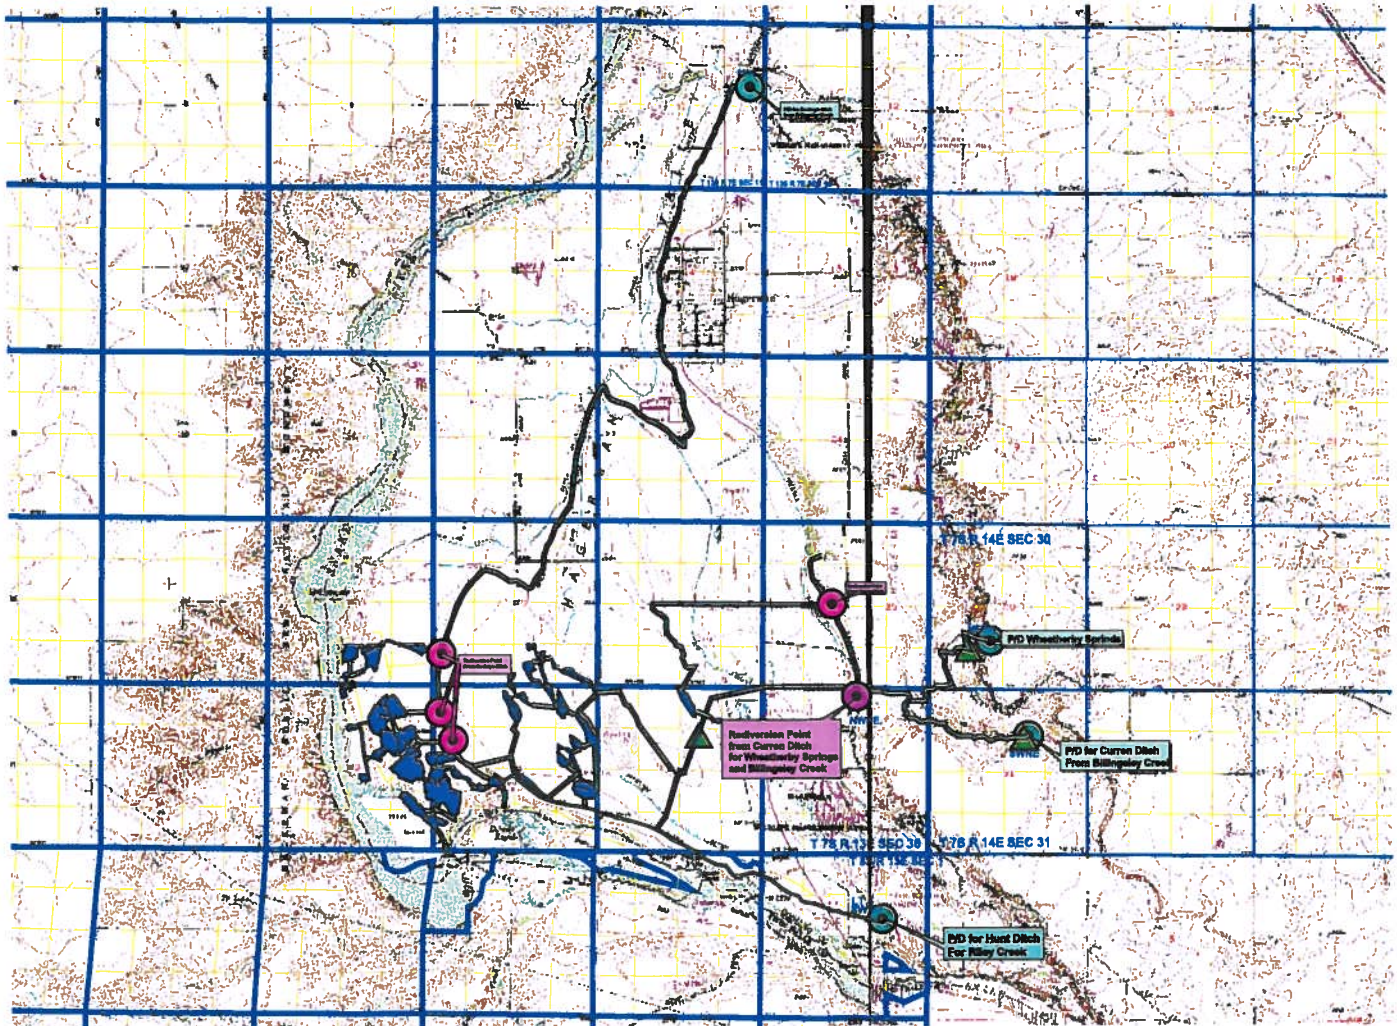

The apparent relationship of 36-07739 to 36-00003H warrants several questions. First, if the irrigation right is 8.37 cfs, then should the fish propagation right also be 8.37 cfs? Or, should 36-07739 be licensed for 12.0 cfs and limited to a combined use of 12.0 cfs when used with 36-00003H? If 36-07739 is licensed for 12.0 cfs, will it undermine the ability of IDWR to represent that 36-00003H is only 8.37 cfs?

DIRECTORS REPORT 36-00003H

Sharla,

Now that 36-00003H* received a partial decree, we are probably in a position to license 36-07739. Please do a carefully documented overlap analysis for both P/D + POU and prepare an L-record.

S.W. Keen

4-10-98

per telecon from Allen Merritt 12/4/98, put this one aside for now. His review of several other exams started by Dan Nelson on other rights div. from diff sources but run through same system - hold to process together with them when they're sent over

Hi Sharla,

I talked to Nick about licensing 36-07824, and he said the diversion rate for 36-07040 may still be at issue. The special master's decision in the subcase is being appealed, and there have been motions filed for late objections. Therefore, it is probably best to hold off on issuing the license at this time. Hopefully, this can all be resolved before the judge steps down at the end of December. Thanks for bringing this to my attention.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

Flow has varied from 0 to over 17 cfs over the last 2 years, according to Mr. Yore. Up to 30 different inflows enter the Buckeye Ditch between Billingley Cr. & the measuring point.

Use is commercial fish propagation (rainbow trout) via lease of facility to private producer (permittee does not operate facility).

Water from Hunt Ditch (Riley Creek) is used in a facility of similar size above this facility before comingling with Buckeye Ditch water for use in this facility.

After use for fish, water is either pumped into sprinklers or runs into recreational ponds on the Buckeye Ranch.

Permittee is the 1st user of decreed irrigation rights on the Buckeye Ditch.

MEMORANDUM

DATE: June 14, 1995

TO: File 36-07739

FROM: Shelley W. Keen *SWK*

RE: Overlap with Right 36-00003H

=====
Permit 36-07739 authorizes Buckeye Farms, Inc., to develop a right to 12.0 cfs from Billingsley Creek for fish propagation purposes. The water is to be conveyed through the Buckeye Ditch.

In the 1983 Proposed Memorandum Decision and Order, later adopted as the final decision, there is an indication that the 12.0 cfs allocated to 36-07739 may be the same 12.0 cfs claimed from Billingsley Creek by Buckeye Farms, Inc. for irrigation purposes. The 12.0 cfs irrigation claim is SRBA claim A35-00003H. The field examiner for 36-07739 also presents evidence that the 12.0 cfs is the same water for both rights. He states, "After use for fish, water is either pumped into sprinklers or runs into recreational ponds on the Buckeye Ranch."

The recommendation prepared by IDWR for SRBA claim 36-00003H suggests the right should be 8.37 cfs, not 12.0 cfs. The 8.37 cfs is broken out as 4.48 cfs at the field headgate and 3.89 cfs for conveyance loss. The recommendation faces objections filed by the United States and by the claimant.

The apparent relationship of 36-07739 to 36-00003H warrants several questions. First, if the irrigation right is 8.37 cfs, then should the fish propagation right also be 8.37 cfs? Or, should 36-07739 be licensed for 12.0 cfs and limited to a combined use of 12.0 cfs when used with 36-00003H? If 36-07739 is licensed for 12.0 cfs, will it undermine the ability of IDWR to represent that 36-00003H is only 8.37 cfs?

Hi Sharla,

I talked to Nick about licensing 36-07824, and he said the diversion rate for 36-07040 may still be at issue. The special master's decision in the subcase is being appealed, and there have been motions filed for late objections. Therefore, it is probably best to hold off on issuing the license at this time. Hopefully, this can all be resolved before the judge steps down at the end of December. Thanks for bringing this to my attention.

Department of Water Resources

Gentlemen:

The department acknowledges receipt of proof of beneficial use on the above referenced permit.

Departmental receipt No. S004119 is enclosed.

The proof does not indicate that the measuring device required as a condition on the permit is installed. This requirement must be met before the department can complete a licensing examination.

We are prepared to do the licensing examination in December or January as requested. Please contact this office to schedule the examination when the required measuring device is in place.

If you have questions or if we can be of further assistance, please contact this office.

Very Truly yours,

Loren O. Holmes, P. E.

PROOF DUE NOTICE

RE: PERMIT NO. 36-07739

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

Department of Water Resources

Gentlemen:

We are in receipt of your letter protesting water right No. 36-7739.

Please be advised that this permit is not the subject of any action before the Department at the present time, and therefore, not subject to protest.

A copy of the memorandum decision and order issuing the permit is enclosed.

We have also received your protest against applications 36-7740, 36-7741, 36-7742, and 36-8355 in the name of Buckeye Farms Inc. which will be the subject of hearings prior to action by the Department.

A letter acknowledging protests against those applications will be issued after the end of the protest period set in the published notice of the applications.

If you have any questions, please feel free to contact me.

SEPTEMBER 1, 1985

DEAR PERMIT HOLDER:

ACCORDING TO OUR RECORDS, YOU ARE THE HOLDER OF A WATER PERMIT ON WHICH PROOF OF BENEFICIAL USE OF WATER WAS NOT SUBMITTED BEFORE JULY 1, 1985, WHICH INDICATES YOUR PROJECT IS NOT COMPLETE. THEREFORE, YOU NEED TO BE AWARE OF CHANGES IN IDAHO LAW, EFFECTIVE JULY 1, 1985, WHICH IMPACT ALL WATER PERMITS ISSUED BY THIS DEPARTMENT.

SPECIFICALLY, PURSUANT TO SECTION 42-203D, IDAHO CODE, THE DEPARTMENT MUST REVIEW ALL PERMITS FOR WHICH DEVELOPMENT OF WATER USE WAS NO COMPLETED ON OR BEFORE JULY 1, 1985, TO DETERMINE IF THEY MEET THE NEW REQUIREMENTS OF CHAPTER 2, TITLE 42, IDAHO CODE. RULES AND REGULATIONS GOVERNING THE RE-EVALUATION OF PERMITS ARE NOT YET FINALIZED. HOWEVER, IF YOU COMPLETED THE DEVELOPMENT UNDER YOUR PERMIT BEFORE JULY 1, 1985, YOU SHOULD SUBMIT A PROOF OF BENEFICIAL USE STATEMENT, STATING THAT THE PROJECT WAS COMPLETED BEFORE JULY 1, 1985 SO THAT YOUR PERMIT WILL NOT BE SUBJECT TO THE REVIEW REQUIREMENTS OF SECTION 42-203D, WHICH READS AS FOLLOWS:

42-203D. REVIEW OF PERMITS - OPPORTUNITY FOR HEARING. - (1)THE DEPARTMENT SHALL REVIEW ALL PERMITS ISSUED PRIOR TO THE EFFECTIVE DATE [JULY 1, 1985] OF THIS SECTION, EXCEPT TO THE EXTENT A PERMIT HAS BEEN PUT TO BENEFICIAL USE PRIOR TO JULY 1, 1985, TO DETERMINE WHETHER THEY COMPLY WITH THE PROVISIONS OF CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PROPOSED USE DOES NOT SATISFY THE CRITERIA OF CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL EITHER CANCEL THE PERMIT OR IMPOSE THE CONDITIONS REQUIRED TO BRING THE PERMIT INTO COMPLIANCE WITH CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PERMIT SATISFIES THE CRITERIA ESTABLISHED IN CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL ENTER AN ORDER CONTINUING THE PERMIT. (2)THE DEPARTMENT SHALL PROVIDE AN OPPORTUNITY FOR HEARING IN ACCORDANCE WITH SECTION 42-1701A, IDAHO CODE, AND SECTIONS 67-5209 THROUGH 67-5215, IDAHO CODE, FOR EACH HOLDER OF A PERMIT THAT IS PROPOSED EITHER TO BE CANCELLED OR MADE SUBJECT TO NEW CONDITIONS.

YOU MAY OBTAIN PROOF OF BENEFICIAL USE FORMS FROM THE DEPARTMENT. IF YOU HAVE ANY QUESTIONS, PLEASE LET US KNOW.

Re: Application for Permit No. 36-7739

Enclosed is a copy of the approved Application for Permit No. 36-7739 along with a copy of the Proposed Memorandum Decision and Order and a copy of the Order Adopting Proposed Memorandum Decision and Order.

Be sure to note the special condition requiring you to install and maintain a measuring device at your point of diversion. We have enclosed a description of the different types of measuring devices accepted by this office.

The 1982 Idaho Legislature added a requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed instructions entitled "Making Proof of Beneficial Use. Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

This application was filed prior to Troutco which was approved. It also is different in that the water that will be used is already being diverted from Billingsley Creek to fill the decreed irrigation rights.

I recommend that some action be taken on this application

SUBJECT APP No. 36-7739

I have some reservations about using the proposed condition limiting the diversion to amount diverted under existing water rights as identified in the Memorandum Decision and Order.

The practice of allowing year around diversion of Billingsley Cr. on the basis of authority of the New International Mortgage Decree will, I believe, sooner or later be challenged by new interests desiring to use Billingsley Creek water. If the court should rule in favor of not allowing year around diversion's under the decreed irrigation rights then the restriction placed on this application as proposed would unduly limited the use of this application during the nonirrigation season.

Many of Troutco's conditions do not apply in the Buckeye case since the water does not return to Billingsley Creek.

This permit must be treated as any permit that would consummatively use the water.

Re: Protest Against Approval of
Application for Permits No.'s:
36-7742, 36-7739 and 36-7740 -
Billingsley Creek Water Diversions

The Idaho Department of Fish and Game protests the granting of application nos: 36-7742, 36-7739 and 36-7740 for water diversions on Billingsley Creek based upon the following considerations.

The flow reduction of 30 c.f.s. (Curran and Weatherby) in upper Billingsley Creek and 12 c.f.s. in lower Billingsley combined would have a detrimental impact on the fisheries and wildlife resources of the stream. If these are approved, combined with other proposed applications for water to be considered by the Department of Water Resources, the impact on fish and wildlife resources in Billingsley Creek would be devastating. Fish production and eventually the total population could be entirely eliminated in the stream. A complete loss of valuable waterfowl, shorebird and furbearer habitat could also result.

Although these public benefits by law, are not now considered in decisions by the Department of Water Resources it would appear some change in direction must be taken soon before all of our spring waters are diverted and irreplaceable resources are lost forever.

re: 36-7739
Buckeye Land

Granting the water right requested by Buckeye Land and Cattle Co. will interfere with existing water rights and permits to the detriment of my property.

Our permit (number 36-7142 Feb. 1, 1971 and amendment Jan. 8, 1976) is the last one physically on Billingsley Creek before the creek enters Snake River waters. The quantity of water and the associated intake system is such that any reduction in flow will adversely effect our system. I've already been forced to rebuild the intake system once by water withdrawals. Further withdrawals will eventually bring me to the point of no return.

We respectfully request that the subject permit not be issued.

NOTICE OF CONFERENCE AND/OR
HEARING

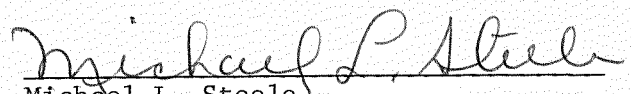

On August 1, 1977, Buckeye Land Company, a partnership, filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. The Department received protests against approval of said application. ✓

The Department has set the matter of protest for conference and/or hearing for Wednesday, February 22, 1978, at 10:00 a.m., in the Southern Region Office, Department of Water Resources. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party desiring the taking of stenographic notes by a qualified court reporter must request such in writing at least five (5) days before the date set for hearing and must submit to the director the name of a qualified reporter who is available on the date set for hearing. The party requesting the reporter shall bear the expense of the reporter's attendance fees. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestant may allow the Department without prejudice to dismiss the protest or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Enclosed are copies of the protests filed against the issuance of a permit pursuant to your Application Nos. 36-7739, 36-7740, 36-7741, & 36-7742. The Department suggests you contact the protestants directly in an effort to determine the nature of the protests and to attempt to resolve the protests.

If you do not advise us within twenty (20) days that the protests have been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the applications for permits (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

RE: application #36-7739

Department of Water Resources
Southern District
Gentlemen:

I wish to protest application # 36-7739 applied for by the Buckeye Land Co., Hagerman, Idaho. Such a granting of application would be in direct violation of the Idaho Water Laws and Regulations.

I especially request to see any figures that substantiate the need for the amount of water being taken the year round from the Buckeye ditch and the other ditches into the same area in the off seasons for stock water. Furthermore I ask that evidence be produced at the hearing and generalities not be admitted or considered as evidence. In other words, as in any hearing, evidentiary procedures should be enforced.

Under the Idaho Code, this application covers a new allotment of water and we have not had enough water in Billingsley Creek this year, it is over allocated. Would you please send me a copy of this application and bill me for the same.

Very truly yours,

R. W. Stevens

The Idaho Department of Fish and Game protests the granting of water application #367739 for 12 c.f.s. of Billingsley Creek water and application #367742 for 20 c.f.s. of Billingsley Creek water. Both applications are by the Buckeye Land Company for fish rearing purposes.

The Department feels use of this amount of water on a year-round basis would be detrimental to the fisheries resource on Billingsley Creek and could have an adverse effect on the effluent dilution capacity of the stream.

Mr. Michael L. Steele, Supervisor
Idaho Department of Water Resources
1041 Blue Lakes Boulevard North
Twin Falls, ID 83301

Dear Mr. Steele:

This letter is in protest of Application for a Permit No. 36-7739 in the name of Buckeye Land Company, to appropriate water from the Billingsley Creek through Buckeye Ditch for fish propagation.

The water which has been filed for has not been used under the condition as set forth under the Decree (New International Mortgage Bank) vs. (Idaho Power) as indicated under the Application. The Decreed right has not been used for irrigation with 12.0cfs. The Application will jeopardize prior rights.

Sincerely,

Richard Cook, President
Sands Ditch Water Users Association
Hagerman, ID 83332

SUBJECT

Buckeye Land Company Applications 36-7739; 36-7740;
36-7741; 36-7742

I talked with Donnie McFadden regarding the legal description of the place of use. Mr. McFadden said that the area in which the ponds are proposed to be constructed is located directly south of the ranch and the ponds will be no more than $\frac{1}{4}$ mile in length and 100' in width. The area south of the ranch is described as the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec 34 & SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 33, T. 7S., R. 13E., B.M.
