Allen,

Here's the revised transfer Page 2, map and shapefiles.

My shape for the new pivot came from scanning and rectifying NRCS' final design. I'll check with them on final design area for the pivot...we'll make 'em match one way or the other! I assume if the pivot enlarged during the design process we'll need to re-advertise?

I'll check that out. The permit was submitted prior to my involvement.

Seems the pivot shown does not correspond to the application for permit. (Pivot has gotten bigger and wandered into other tracts.)

Are you going to amend the permit to match?

Allen,

Sorry about the confusion. Map was apparently too large to email. This is a different format...should work better.

Roxanne
