RE: Water Right Permit No. 22-13418, 22-13421, & 22-13425

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permits referenced above prior to issuing a water right licenses. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permits have been developed differently than described on the permits. Changes that do not increase the authorized use of water under the permits can be requested and approved in accordance with Section 42-211, Idaho Code. Before licenses can be issued, your permits must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

☒ **Point(s) of Diversion**

☒ **Place(s) of Use**

The enclosed Application for Amendment forms depict the elements of each water right as they will appear on the license when it is issued. Please review the amendment forms carefully. If you concur with the information presented, please sign each form and return it with the \$100.00 filing, fee per amendment, within 14 days. Or instead of paying the fees directly, you could request that fees previously paid be applied to the required amendment fees instead of refunded as explained below.

On August 22, 2011, the Department received a request for refund of \$900 for field exams on water right numbers 22-13416 through 22-13428. On September 6, 2011, the Department received field exams for 7 of the permits for which a refund was requested. Total fees paid at the time proof of beneficial use was submitted for those 7 rights totals \$600 (see below).
