Item 7: Conditions of Approval

1. Proof of application of water to beneficial use shall be submitted on or before December 15, 2011.

Submitted as of 6 September 2011 mailing date.

2. Subject to all prior water rights.

None identified

3. Place of use is located within Lot 2 of Rocky Mountain Meadows Subdivision.

Irrigation system is used on Lot 2

4. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District 72A & 170.

See Item 3.

5. The right holder shall install or construct a straight length of conduit or ditch suitable for installation of a device for measuring the entire flow of water in connection with this right. If the right holder uses conduit, the straight length of conduit shall be at least fifteen times the diameter of the

conduit and shall be above ground or otherwise easily accessible.

Access is available from the hydrant to the ground, or a measuring device could be installed in the K-line.

6. Upon specific notification by the Department, the right holder shall install and maintain acceptable measuring device(s), including data logger(s), at the authorized point(s) of diversion, in accordance with Department specifications.

We have not been notified to install a measuring device.

7. When notified by the Department or by a watermaster with regulatory authority over this right, the right holder shall report the amount of water diverted in connection with this right. The report shall be submitted in the manner and frequency specified by the Department or watermaster.

We have not been notified to report the amount of water diverted in connection with this water right.

8. Prior to diversion of water under this right, the right holder shall install a lockable device, subject to the approval of the

Department, in a manner that will provide the watermaster suitable control of the diversion.

A lock, such as a bicycle lock, can be installed over the faucet and handle.
