Sharla,

RE: Application for Permit -typo-: 15-07346, Gunnell

During the course of our review of this permit application, we believe there is a typo in how the hardcopy application was data entered into IDWR's database. The hardcopy application for permit lists the POD & POUs in T16S, however the data entry into IDWR's system lists the POUs in T06S. Since the claim is in B15, T16S would make more sense. Neither description effects BLM, we are just forwarding this apparent discrepancy in case it is of interest.
