RE: Water Rights/Adjudication Claims of Lambert Produce

Dear Cory;

I am working with Sander Elquist to resolve an ownership problem of your joint water right on Land Ranch Spring. Both of you have claimed 39 inches from this source, but the original water right is for 39 inches. Sander will probably be contacting you about this. I noticed that your claim (A45-00698B) is still in the name of Lambert Produce, and am wondering if this is correct. In searching our records, I found quite a few claims for Lambert; a list of these claims is enclosed. Do these claims still belong to Lambert, or have you purchased all of their property? A change-of-ownership form is enclosed for your use if needed.

Regards,

James E. Stanton
Sr. Water Resource Agent

RE: Application for Transfer #5147

Dear Mr. Elquist;

Your application has been advertised without protest, and is being reviewed by our regional manager before being forwarded to our Boise office for final action. A problem has occurred with ownership of your water right on Land Ranch Spring, however, which needs to be corrected before processing can continue. Both you and Lambert Produce claim all of Right 45-00698. Even though you can rotate the full right between you, my manager feels that it should be claimed according to your proportional ownership of the right. Amending the two claims (A45-00698B & A45-12444) would solve this problem. Also, Cory's claim is still in the name of Lambert Produce; this needs to be changed before he can amend his claim, and I will contact him separately about this. If I can be of assistance, feel free to contact me.

Regards,

James E. Stanton
