RE: App For Transfer 5147, Elquist Ranches

Dear Mr. Elquist;

The above-referenced application was filed in July of 1997 by Sander Elquist. The address given in the application is shown in the telephone book as belonging to you, however, so I am contacting you on this matter. The application makes several changes to your water rights on Land Creek, Land Ranch Spring, and two irrigation wells, including drying up land that was being sold for a feedlot. The application has been held in this office pending completion of the review for your Snake River Basin Adjudication claims on these sources, and this has now been done. The recommended place of use is different in several areas due to the installation of pivots that were not there in 1987, so a transfer is required if these pivots have been or will be installed. A copy of the map showing the proposed place of use is enclosed for your information.

Are you still interested in pursuing this transfer? If so, please contact this office by January 26, 2004, so that processing can continue. If we do not hear from you by then, we will assume that you are no longer interested; your application will be forwarded to our Boise office for denial.

Regards,

James E. Stanton
Sr. Water Resource Agent
