Subject: Beneficial Use Field Exam Report (Permit 63-31430)

Dear Pam,

Enclosed on behalf of the City of Nampa is a completed Beneficial Use Field Report for Permit No. 63-31430 that authorizes domestic ground water use at Northside Estates Subdivision.

The City of Nampa manages the domestic system for Northside Estates Homeowners Association and hired SPF Water Engineering to conduct the licensing exam.

Currently, the permit is listed in the name of the developer, Brown Construction. An assignment of the permit from Brown Construction to Northside Estates Homeowners Association is included in exam Attachment A to allow the license to be issued in the name of the Association.

Brown Construction submitted Proof of Beneficial Use and paid \$100 for the exam fee. Since SPF conducted the licensing exam, please refund \$100 to Brown Construction, receipt No. C086240.

Thanks Pam. Please let me know if there are any questions.

Sincerely,

Lori Graves
Water Rights Specialist

Cc: Richard Brown, Brown Construction
Michael Fuss, P.E., City of Nampa
