RE: Beneficial Use Field Report for Permit No. 63-31430

Dear Mr. Scanlan,

On February 23, 2009, you completed a beneficial use field examination for permit no. 63-31430 (permit), now in the name of Northside Estates Homeowners Association. On June 15, 2009, the Department of Water Resources (Department) received the beneficial use field report you completed for the permit. Your report describes the current use of water within the authorized place of use. However, the authorized development period ended May 1, 2004. Additional information is necessary to determine the use of water developed under this permit prior to May 1, 2004. Specifically, the 2006 aerial photo in Attachment C of your report shows that homes are not constructed on Lot 13, Block 1, Lot 11, Block 2, and Lot 12, Block 2. Please provide evidence that the domestic water supply system was completed by the end of the authorized development period and served these parcels. In accordance with Rule 35.02.c of the Department's Beneficial Use Examination Rules, IDAPA 37.03.02, please provide the requested information within 30 days.

Prior to issuing a license for this permit, an amendment is necessary to correctly describe the place of use. The permit authorized the use of water in Gov't Lot 1 (NE $\frac{1}{4}$ NE $\frac{1}{4}$) Section 4, Twp 3 North, Range 2 West. However, the place of use developed in connection with the permit is within Gov't Lot 1 and extends into Gov't Lot 2 (NW $\frac{1}{4}$ NE $\frac{1}{4}$) Section 4, Twp 3 North, Range 2 West, as described by the warranty deed submitted with the statement of completion. Upon receipt of the additional information requested above, the Department will prepare and send a licensing amendment to the permit holder to correct the place of use description.

If you have any questions, please contact me at (208) 287-4943.

Sincerely,

Aaron Marshall
Sr. Water Resource Agent
