RE: Clarification of Ownership Change

The attached ownership change is to transfer the ownership of the above water right from Hoff to Settlers Irrigation Dist.

Through several discussions with Nathan Draper (Settlers) and Steve Hannula (Hoff) a ownership change application was made. The change of ownership has the following specifics related to the water right:

- The place of use listed on the water right is already within the service area boundary of Settlers Irrigation Dist—See service shape map. .
- The water right listed point of diversion is one of Settler's P/Ds
- The place of use under the new owner will not change. Settlers will be delivering water to the same P/U.
- There will be no changes to the water right elements. A transfer process would be required to change the place of use to the District's entire service area.
