Subject: Taxlot data for water right 22-11784-Sundown Property LLC
Attachments: img-911094827.pdf

As per our phone conversation yesterday September 10, 2009, during our research of a Notice of Change in Water Right Ownership for Sundown Properties, water right number 22-11784 would require a split. Please find attached a copy of a map showing the taxlot data information as requested. According to the state office because this is a stockwater right for only .02 cfs we would need to split the water right and give both children .02 cfs, but limit both water rights to 13,000 gallons a day; also there is a range cattle limitation of 500 range cattle which would also need to be split. In order for the department to complete the split we would need to know how many range cattle each owner would have for their property. If you believe that Sundown Properties is the owner of the entire water right, please submit a deed showing there ownership of the portions in Section 1 Township 5 North Range 44 East according to taxlot data owned by Vest, Ruskin A.
