RE: Permit 65-13912—Installation of Pipe

Dear Dr. MacGregor:

Thank you for visiting our office yesterday to discuss the final steps in completing the development under permit 65-13912. In addition, you submitted a schematic of how you will satisfy condition of approval #9. The condition requires the installation of a pipe to deliver water to water rights no. 65-12891 and no. 65-13332 to replace reductions in the quantity or temperature of water historically diverted under water right no. 65-12891 and 65-13332 caused by diversions under permit no. 65-13912.

This letter serves as an acknowledgement that your above-mentioned plan appears to be sufficient to accomplish its purpose. On September 29, 2010, IDWR staff sent you a technical review that indicates that once the pipe is installed, the requirements under condition #9 will be met.

If you have any questions regarding this matter, you may contact me at (208) 287-4944.

Sincerely,

Cherie Padilla, Sr. Water Resource Agent
Water Allocation Bureau
