Subject: Application for Permit 78-12390

Dear Mr. and Mrs. DeMoss:

We are in the process of reviewing the above referenced application for water right permit that you submitted in April of this year. We find that the application is located within an area that is under heavy scrutiny due to the minimum stream flows on the Little Salmon River. We notice that you have applied for the irrigation of 1 acre of land under your application. We also noticed that your property is only 0.777 acres in size and that you have several buildings on it. Would there be a chance that you will be irrigating $\frac{1}{2}$ acre, or less, under this application? If that is the case, we can amend the application to show the use as a domestic use and you could avoid requesting comments from the Idaho Dept. of Fish and Game.

A domestic use consists of water for a single family home and includes up to $\frac{1}{2}$ acre of lawn and garden. (see Idaho Code, Section 42-111 for legal terminology).

Please let me know, at your earliest convenience, what your intentions are in this regard. Thanks for your attention to this matter.

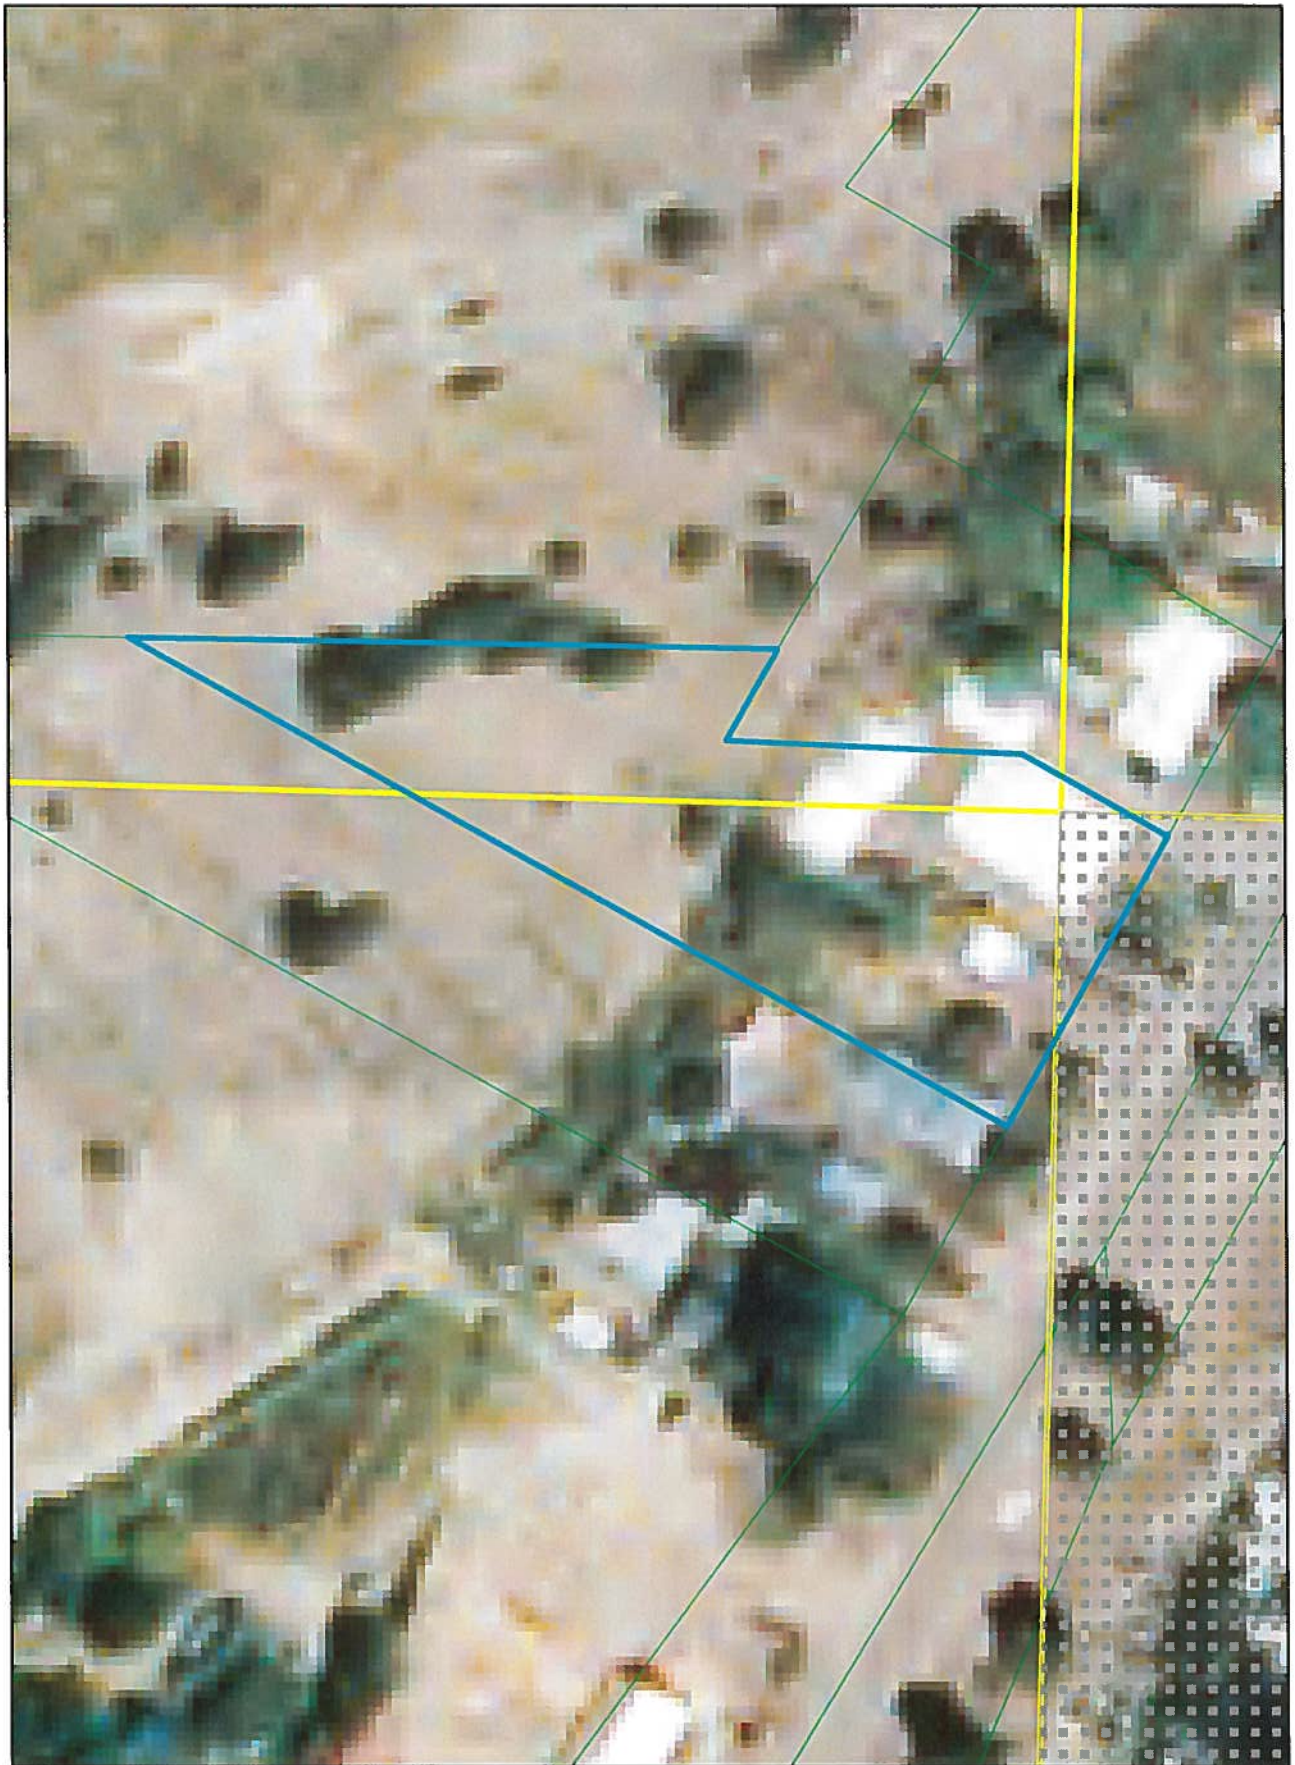

Sincerely,

KAY WALKER
Sr. Water Resource Agent
