Re: Review of Applications to Lease Water Rights to the State Water Supply Bank

PURPOSE/NARRATIVE: I received a letter from Mary Allen Pugh of Cuddy Meadows Ranch regarding the recent lease approval for water rights 67-196 and 67-2113A. In her lease application, Ms. Pugh indicated two acres under these water rights would continue to be used. I left those two acres out under 67-2113A, the junior right here. In her letter, Ms. Pugh indicated she wanted those two acres available under water right 67-196. I have redone the lease acceptance for 67-196. There was no change to the other water rights listed in the agreement.
