RE: Permit No. 79-14238

Dear Ms. Block:

Attached is a copy of your PROOF OF ACKNOWLEDGEMENT LETTER advising the need to comply with condition No. 3 of the permit.

I spoke to your department who referred our in-creek water source inspection request to the Idaho Department of Fish and Game. Ray Hennekey of that department discussed the specifics of our installation and approved as proper the in-creek ¼ inch water screen on the intake device which would be "more than adequate to protect against any fish species" in the creek.

He advised that I notify you of his approval of our in-creek water uptake source specifics and quote his approval. He stated that this would meet the needs of condition No. 3 which state: "Prior to diversion and use of water under this approval, the right holder shall comply with all fish screening and/or fish passage requirements of the Idaho Department of Fish and Game for the Elfers Creek diversion" of the permit.

Please acknowledge that all required conditions of the permit have been hereby met by return letter.

Thank you,

Reginald D. Rice
