Hi Jim,

I wanted to thank you again for your help in defining the subdivision lots that will be covered by water right 96-8982. As a recap, there are 50 individual lots within Kullyspell Estates that are stubbed into the water distribution system. Specifically you clarified that Lot 11 Blk 1 is made up of two lots and each lot can be connected to the system. Also, there is a Lot 1 Blk 1 of the 1st Kullyspell Addition that has been added later in time that also has water availability. Finally, there are three lots that are not in Kullyspell Estates but receives water from the common system. Those lots are directly south of Kiebert Loop and are owned by Keibert, Popov, and Hillbroom. Note that because the lots are not covered by water right 96-8982, it does not mean that water delivery should cease to those users, the water use just needs to be recorded with IDWR.

I am enclosing information regarding the Northern Idaho Adjudication (NIA) and the link for an Application for Permit. The three lots do need to be covered by a water right and either process will get you there, it is just a matter of priority date as we discussed on the phone. If you have any questions please let me know. Have a great day!

Link to Application for Permit and the second link is for instructions in filing a new application for permit

phone: (208) 287-4944
fax: (208) 287-6700*

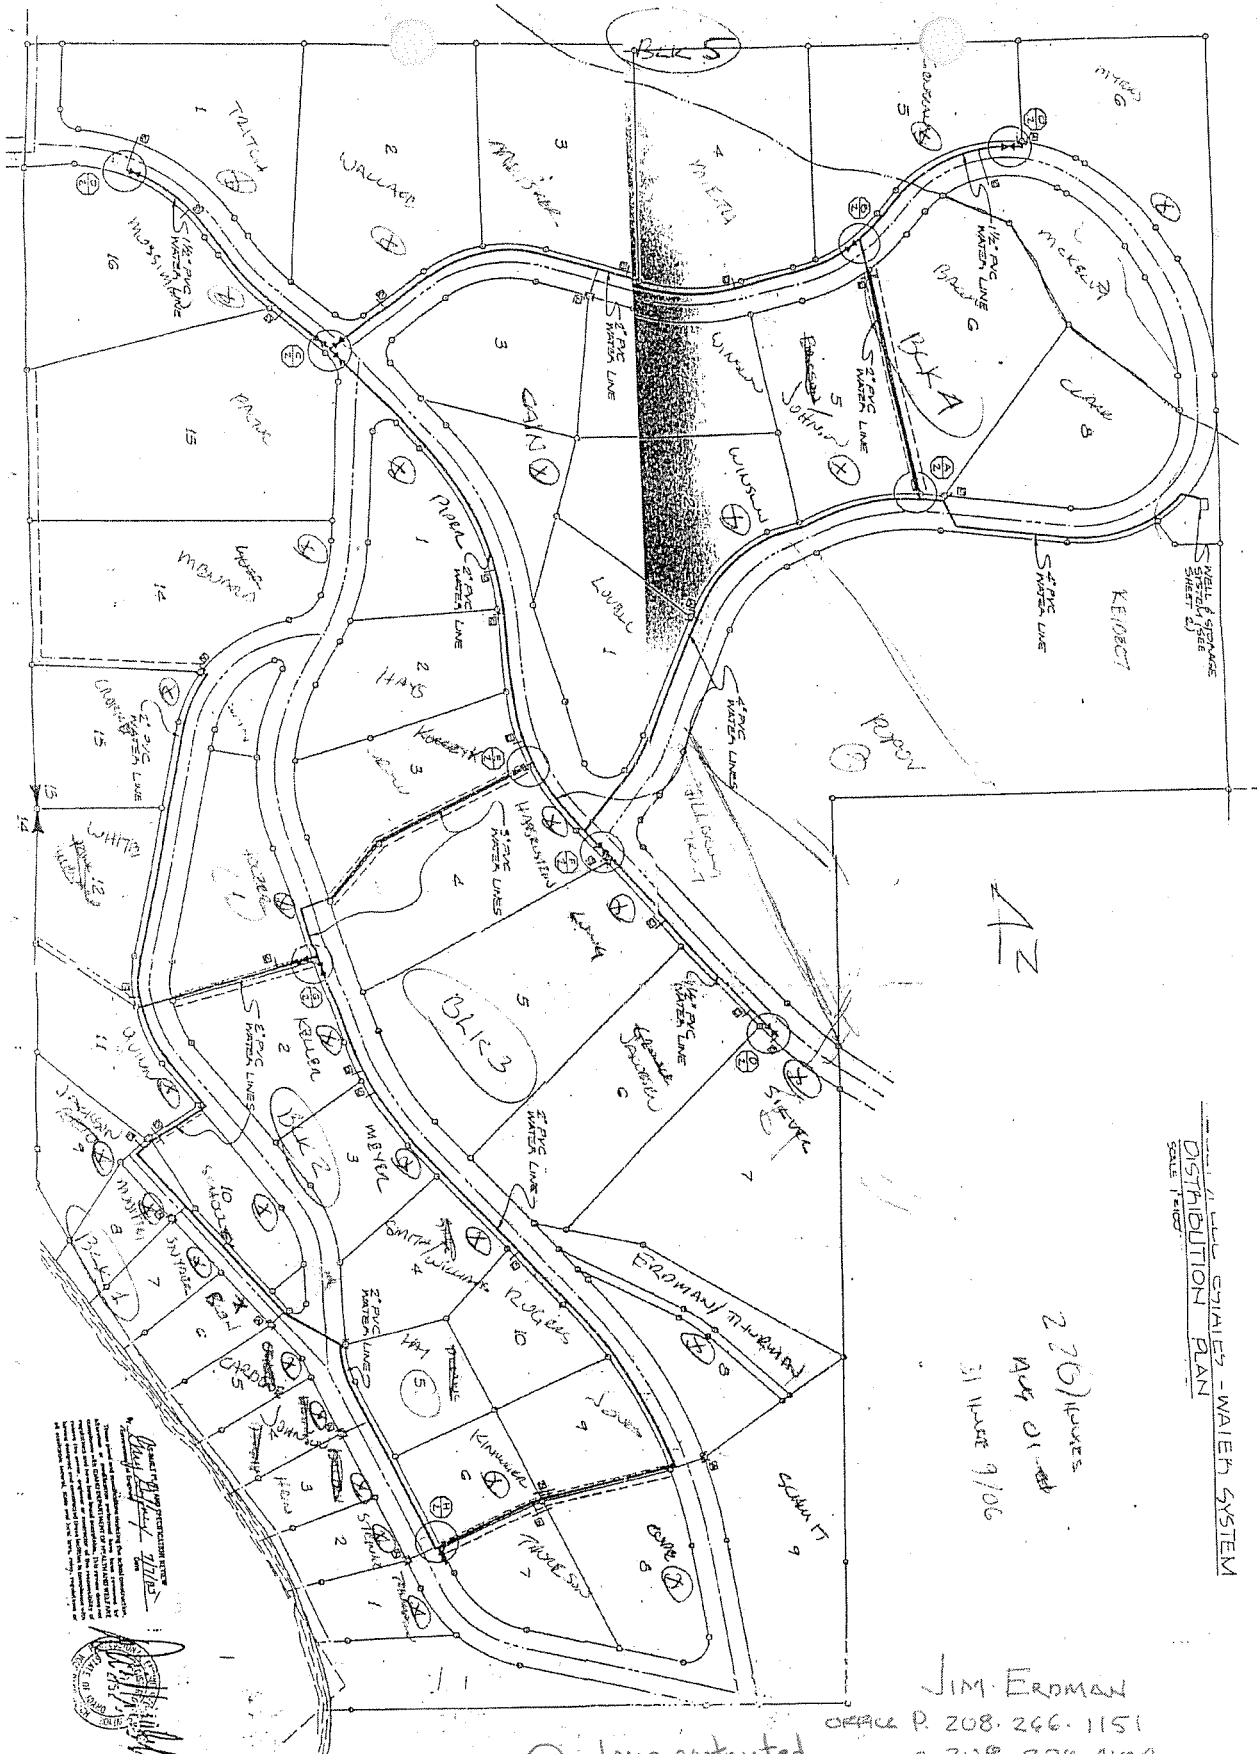

8/4/11 - Per meeting with
Shelley Keen change use to
municipal so all lots are covered
and limit volume to 50 homes.

Cherie,
This is reduced from two large format drawings.
