Re: Responses to Questions for Application for Transfer #75446

Dear Ms. Hemenway:

This letter is in response to your questions of May 18, 2011.

1. Enclosed is a \$40 check for the additional application fee.
2. Page 6 of the application should reference Section 23. A corrected page 6 is enclosed with this letter.
3. A map is enclosed showing the remaining unchanged portions of water rights 63-2812 and 63-10438.
4. The Tuscan Ridge preliminary plat filed with the original application for transfer accurately describes the POU after the transfer is complete and the subdivision is built out. The name has been changed to Sienna Hills but the property description is the same. The POD for the new well is shown on Attachment 7b to the application submitted on February 17, 2011. If the POU and PQD need to be shown on the same map, please let me know and I will prepare an additional map.
5. The irrigation well in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec 14 Twp 3N Rge 3W has already been abandoned. This is the same 40 acre tract in which the new well for the subdivision is located. The well in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec 14 will be retained for fire protection only for the business on the adjoining property to the south until a fire hydrant is constructed as part of the subdivision build out. At that time that well will also be abandoned. The remaining wells are still in use for irrigation purposes on the portion of the property not yet developed. Upon build out one of these wells may be retained for use by an adjacent property owner and the other will be abandoned, or both will be abandoned if no use is continued.

Ms. Hemenway, Sr. Water Resource Agent
