Cherie:

This email is an update on progress responding to your request for information.

Joshua Fisher told me by phone earlier today that he has marked a photomap showing the areas that he knows have been irrigated while he has worked at the Ranch for the past 5 years or so. He is mailing a hard copy of the map and a signed statement describing the map and providing other information concerning use of water.

I will call you next week to set up a time to review this information with you and determine if anything further is needed to allow the transfer application to be approved.

Please give me a call at 373-7983 (office) or 484-4345 (cell) if this schedule does not work for you.

Norm

Cherie:

Thanks for talking with me earlier this afternoon.

As we discussed, Mr. James and others familiar with irrigation during recent years at Living Waters Ranch will mark on the photo map you provided the areas that have been and are being irrigated. In addition, an affidavit is being prepared to confirm the use.

I appreciate your willingness to delay the processing for several weeks to allow this information to be prepared. I will contact you no later than the end of this month to arrange a time that we can meet to review the information that is being prepared and to discuss any remaining concerns.

Norm Young
