April 28, 2011

My name is Joshua Fisher, and I have worked at Living Waters Ranch for just over 5 years. I started out as the head Landscaper, and was so for 3 seasons. I then became the head of Maintenance for another 2 seasons, the second of which I was also the head Landscaper again. At the end of January 2011 I took over the managers position, I now oversee all operations.

I looked at the sections in question and marked the areas that I know were irrigated with a Hi-Liter (see attached map). All of these sections have irrigation readily available and I personally have seen these areas irrigated within the last 5 years.

If further detail is required, I am available and willing to cooperate.

Joshua Fisher

Living Waters Ranch Manager

Forfeiture Analysis for X1 or 74253 Irrigated Place of Use for Living Water Ranch
