RE: Water Right Permit No. 36-08713

Dear Mr. Hagg:

As we discussed on May 19, 2011 our office has recently started the process of licensing permit 36-8713 in the name of the Estate of Frank Cnossen. During preliminary examination of the permit, it was discovered that the point of diversion appears to have been developed differently than described on the permit. Before a license can be issued, permit 36-8713 must be amended to depict the water use as it was actually developed.

Our office has drafted an Application for Amendment that indicates the change that will correct the permit. This amendment will correct the point of diversion that was originally described in the SESENE of SEC 30 TWP 08S RGE 15E and add a second well described in the same QQ that also served the facility when proof was filed. According to the Department's records two GPS points were taken on 12/26/2008 indicating both wells are located in the SESWNE of SEC 30 TWP 08S RGE 15E.

The enclosed Application for Amendment form depicts the water right as it will appear on the license when it is issued. Please review the amendment form carefully. If you have any questions please feel free to call me. Otherwise, please sign the Application for Amendment and return it with a \$50.00 filing fee.

As we also discussed I have enclosed the Change of Ownership form that will need to be filled out and signed to convey the new license into the name of Box Canyon Land Holdings, LLC. In addition, you will need to also submit warranty deeds showing chain of title from the Estate of Frank Cnossen to Box Canyon Land Holdings, LLC. This will provide proof of ownership for the facility. The change of ownership also requires a filing fee of \$25.00.

In closing a total of \$75.00 for filing fees will need to be submitted along with the signed Application for Amendment, signed Change of Ownership and the warranty deed.

Again, if you have any questions or need further assistance, please call me at 208-736-3033.

Sincerely,

Jana Reeder
Water Resource Agent
