Re: Transfer Application – Water Right 72-4077

Dear Allen,

We are happy to submit the enclosed Application for Transfer on behalf of our client Petersen Ranch Trust. You will also find a check enclosed for the filing fee, totaling \$820.00.

The application seeks to correct errors in the legal description of both the point of diversion and place of use of water right 72-4077. The applicant is currently participating in a series of conservation projects on Bayhorse Creek, and the place of use correction is necessary prior to installation of irrigation improvements designed by NRCS. In addition to this transfer application, an Application for Permit for Petersen Ranch Trust (72-16873) was recently advertised which represents another component of the conservation plan. Federal and state agencies (including IDWR's Water Transaction Program) are providing funding for the plan.

Please notify me if there are any questions concerning this application.

Best Regards,

A handwritten signature in blue ink that reads "Roxanne Brown".
