RE: Lueck Farm PD Changes

Dear Mr. Lester:

Enclosed, please find three applications from Al & Jerry Lueck Farms LLC.

The purpose of these applications is to obtain authorization for a new well as soon as possible. Permit 63-033343 authorized a new well, but the owner desires that well to be located closer to the mainline and power line. Also, the new well is to supplement the capacity of the existing system to provide the full authorized supply. No increase of acres or diversion rate/volume is sought, just the ability to pump the authorized rate. Therefore, on behalf of the owner, please accept the following applications:

- A Point of Diversion Transfer is submitted to identify the new well in all four irrigation rights (63-7460, -8230, -8239, -8256). The filing fee is \$1140.
- An Application for Amendment of a Permit is submitted to move the location of the proposed well to the new location. The filing fee is \$100.
- A Change In Address for all of the water rights and the permit associated with their property. No fee for this form.
