Sandy,

A review of the original Field Report indicates that the POD in the SWSWSW 09 12S 24E Cassia County should in fact be located in Section 04. The 04 on the Field Report strongly resembles a 09. There is six POD that where located by a GPS unit. One in section 4 and five in section 9. In section 9 there are two POD in the NENW and three POD in the SENW.

Amy,

Could you do me a favor, and look at the field exam conducted by Brockway for 45-14178 Moo View Cow Palace? On the first page of the field report,

C. Diversion and Delivery System, only 3 PODs are listed (all in section 9). On the NAIP 2009 Aerial map, 5 PODs are shown in section 9, and 1 POD in section 4. On the Narrative to the Beneficial Use Field Report, first paragraph, it says there are six (6) individual springs located in Sections 4 and 9 of T12S R24E Cassia County, Idaho.

Since I have to do an amendment for licensing anyway, I just wanted to give you a heads up that I will be correcting the PODs to show 6 PODs (1 POD in Sec 4, and 5 PODs in Sec 9) to match that in the field exam narrative and NAIP 2009 Aerial map. Do you agree?
