

State of Idaho
Department of Water Resources
Permit to Appropriate Water

NO. 94-07852

Priority: March 08, 2011

Maximum Diversion Rate: 0.05 CFS

This is to certify, that JOHN MOORE
27706 LATOUR CREEK
CATALDO ID 83810
(208) 682-2215

has applied for a permit to appropriate water from:

Source: GROUND WATER

and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
COMMERCIAL	01/01 to 12/31	0.05 CFS

LOCATION OF POINT(S) OF DIVERSION:

GROUND WATER, NW1/4NE1/4, Sec. 27, Twp 48N, Rge 01W, B.M., KOOTENAI County

PLACE OF USE: COMMERCIAL

Twp Rge Sec	NE				NW				SW				SE				Totals
	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
48N 01W 27		X															

CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **May 01, 2016**.
2. Subject to all prior water rights.
3. This right does not grant any right-of-way or easement across the land of another.
4. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.
5. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
6. Commercial use is for 9 camp sites.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Coeur d'Alene, this 11th day of May, 2011.

GARY SPACKMAN, Interim Director

RE: Permit No.94-7852

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a 'Proof Due Notice' approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this water right permit were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Ground Water Protection Section located here at this office or our regional office nearest you.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-762-2800.

Sincerely,

A handwritten signature in black ink, reading "Keith E. Franklin". The signature is written in a cursive, flowing style with a large initial "K".

Keith E. Franklin

Sr. Water Resource Agent

Enclosure(s)

CERTIFICATE OF SERVICE

I hereby certify that on May 12, 2011 I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER (Approved Permit) to the person(s) listed below:

RE: WATER RIGHT NO.

94-7852

**JOHN MOORE
27706 LATOUR CREEK
CATALDO ID 83810**

A handwritten signature in cursive script, reading "Carolyn S. Monitz", is written over a horizontal line.

**Carolyn S. Monitz
Technical Records Specialist**

Statement of Available Procedures and Applicable Time Limits

RESPONDING TO PRELIMINARY ORDERS ISSUED BY THE IDAHO DEPARTMENT OF WATER RESOURCES (To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Case No. CUP11-0002 - Moore Condition Modification

Dear Mr. Camin,

This letter is to clarify the intentions of this project and the number of people/sites to be served as requested.

On March 11, 2011, a proposal to modify the Conditional Use Permit C-1105-04 was submitted to Kootenai County Planning & Zoning. The intent was to reduce the parent parcel from forty (40) acres to two (2) 20 acre parcels and maintain the existing footprint of the campground on one twenty acre parcel and the residence on the other twenty acre parcel. **No other changes are proposed.**

The "split of the property" is being addressed at this time because I am retiring and would like to sell my property. With the way our economy has changed, it has been brought to my attention by bank sources that a perspective buyer can receive financing on a 20 acre parcel rather than a 40 acre parcel. Since I am allowed a free split, I would like to take advantage of it. However, I do not wish to lose my permits for the campground because of the split which is why the modification is being done at this time.

Dances With Bears campground was developed as a primitive-style campground to provide a more controlled site for prospective campers to enjoy the upper Latour Creek area. The campground provides 23 RV spaces and an area for some tents. The first narrative specified 10 spaces were to have water and power hookups. The 2005 approved CUP specified that there were to be "limited number of spaces" designated to offer water and power hookups.

At this time, no spaces have hookups.

When locations are determined, **9** spaces will be used.

Mr. Robert Tate, (Tate's Engineering) was hired to do the well specifications. Mr. Tate recommended "a 4 spot" for the water capacity for this campground. As it was explained, a "4 spot" could accommodate 1 to 10 spaces and still remain under regulatory concern. DEQ guidelines specify that 1 space equals 2.5 people since it can not be determined whether a RV will be accommodating one person or six.

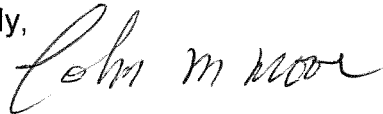

Per a letter from Mr. Tate's office, a Public Water System (PWS) is described as being at least 15 connections and servicing at least 25 people at least 60 days out of a year. A "PWS" can be one of three types: Community Water System, Non-transient Non-community Water System, and Transient Non-community Water System (TNCWS). For complete rules, see the Idaho Rules for Public Drinking Water Systems.

A "TNCWS" is described as serving an average of at least 25 people (but not the same 25) less than six months per year (e.g., campgrounds or highway rest stops). Dances with Bears Campground falls under the guidelines of a "TNCWS".

The perspective usage of the campground has been alot less then expected over the last 5 years since the approval of the CUP. Last year, not more then five campers and 2 tenters used the facility. To accomodate DEQ, a log will be kept this year to determine an average of users.

It will be advised to any new owners that if they decide to have more then 9 spaces with power and water, they need to seek advice from DEQ and to keep a log of occupancy to determine an average of users.

Sincerely,

A handwritten signature in cursive script that reads "John M. Moore".

RECEIVED
MAR 29 2011
IDWR / NORTH

Moore Campground
Project Description: Water System

The proposed campground will have 23 spaces with up to 9 spaces served with water. Water will be supplied through a 6-inch well 165 feet deep producing 20gpm. This well will have a 3hp pump that will pump to a pressure tank. The pressure tank will be set on a 40/60 psi cycle for the pump on and off.

From the pressure tank the water will flow through a flow meter and then out to distribution. Distribution will be through a two inch HDPE line that will serve a ¾ inch line to each service.

Application For Permit No. 94-7852

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the COEUR D ALENE PRESS on 4/7/2011 and 4/14/2011. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Keith Franklin
Sr. Water Resource Agent

Re: Application For Permit to Appropriate the Public Waters of the State of Idaho

Dear Mr. Moore:

This is in regards to my letter to you dated March 14, 2011 and your subsequent meeting with the Northern Regional Manager, Bob Haynes on March 16, 2011. Be advised the department will proceed with the processing of your application as originally submitted, with domestic and commercial diversion rates of 0.05 cfs each and a total diversion rate of 0.05 cfs.

If you have any questions, feel free to contact me at this office.

Sincerely,

Keith E Franklin
Senior Water Resources Agent

Re: Application For Permit to Appropriate the Public Waters of the State of Idaho

Dear Mr. Moore:

The Idaho Department of Water Resources is returning your recently submitted application for the following corrections;

Item #4 Purpose of Use

The states allocation for a single family domestic dwelling is 0.04 cfs instead of the 0.05 cfs as stated on the application. Please make the change necessary change on the application.

Item #5 Total Quantity to be Appropriated

I would suggest changing the requested 0.05 cfs to 0.09 cfs (40 gpm) in case the well comes in at a higher capacity than anticipated.

Once the changes have been made, please resubmit the application within the next 30 days so as not to delay processing and if you have any questions, feel free to contact me at this office.

Sincerely,

Keith E Franklin
Senior Water Resources Agent
