Re: Application For Permit to Appropriate the Public Waters of the State of Idaho

Dear Mr. and Mrs. Brandvold:

The Idaho Department of Water Resources is again returning your application for corrections.

In my March 14, 2011 letter I requested an outline of your tax lot and point of diversion on a provided aerial photograph, so the department could generate a shape for your application. The application was returned without the outline of your tax lot and the location of your point of diversion was indentified in a different quarter section than originally stated.

Before you resubmit the application, I suggest you give me a call at 208-762-2800 within the next 30 days, so I can help you with the needed changes.

Thank you.

Sincerely,

Keith E Franklin
Senior Water Resources Agent

An aerial photograph of a coastal region, likely in the United States, overlaid with a yellow grid. The grid lines are spaced at regular intervals. The terrain is a mix of dark green forested areas and lighter green or tan areas that appear to be cleared land or water. A prominent road or path runs horizontally across the middle of the image. Several small, light-colored rectangular shapes, possibly buildings or structures, are visible along this road and in the surrounding areas. The text '46N01E23SE NW' is printed in a bold, red, sans-serif font in the center of the image. The overall image has a slightly grainy, vintage quality.

An aerial photograph of a coastal region, likely a bay or inlet, characterized by dark green water and sandy, light-colored shorelines. A yellow grid is superimposed on the image, with vertical lines running from top to bottom and horizontal lines running from left to right. In the center of the image, the text "46N01E23SENW" is printed in a bold, red, sans-serif font. The terrain shows various features: a prominent sandy spit on the left, a small cluster of white structures or boats in the middle, and a larger area of land on the right with some red-roofed buildings. The overall scene suggests a remote or undeveloped coastal area.
