RE: Application for Permit 22-13330

Dear Applicant:

Enclosed is a copy of your application filed on October 29, 2004 to divert water from ground water for 0.14 cfs. Also enclosed are copies of the protests filed against the issuance of the permit. As part of the application process, the following options available for resolution of contested (protested) applications:

- Withdrawal of Application (withdrawal form enclosed)
- Request in writing a pre-hearing conference.

Please consider the best option for resolution of the contested application and forward your choice to this office. If no response is received within 30 days from the date you received this letter, IDWR may void your application.

If you would like additional information, or need to further discuss the process, feel free to contact me.

Respectfully Submitted,

James Cefalo  
Water Resources Program Manager
