APPLICATION FOR TRANSFER OF WATER RIGHT – POINT(S) OF DIVERSION

This form may be used to apply to change and/or add points of diversion for existing water rights and to report an ownership change for an entire water right(s) in connection with the proposed point of diversion change(s). Do not use this form to apply for changes to other elements of a water right or to report an ownership change for a portion of a water right. See the *Application for Transfer Instructions* for help completing this form and for mailing addresses of Department offices where your application can be submitted.

Check all that apply:

☐ Change diversion point(s)☒ Add diversion point(s)☐ Ownership change1. **APPLICANT(S)** Daniel and/or Karen Hansen Phone 208-890-25522. **MAILING ADDRESS** KD Bar Ranch, 6500 SE 7th Ave City CaldwellState ID Zip 83607 Email _____☐ If the applicant is not an individual and not registered to do business in the State of Idaho, attach documentation identifying officers authorized to sign for the applicant.☐ If the applicant is not the current water right(s) owner, attach documentation of authority to file the application.☐ If the application includes a change in ownership of water right(s), attach a copy of the conveyance document, such as a warranty deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property conveyed or description of the water right if no land is conveyed.☐ If the application is not signed by the applicant, attach a Power of Attorney or other documentation providing authority to sign for the applicant.3. **LIST WATER RIGHT NUMBER(S)** 63-12569, 63-31261☒ Attach a copy of the water right(s) as recorded, available at www.idwr.idaho.gov, *Water Right Transfers, Step 1*, or by contacting any Department office.4. **TOTAL AMOUNT OF WATER** transferred is 4.11 cubic feet per second and/or _____ acre-feet per annum.
(diversion rate) (storage volume)5. **POINT OF DIVERSION** – Describe all the point(s) of diversion to be included on the water right(s) after the proposed change.☐ Attach Eastern Snake Plain Aquifer (ESPA) analysis if this transfer proposes to change a point of diversion affecting the ESPA. ESPA analysis information is available at www.idwr.idaho.gov, *Water Right Transfers, Online Resources*.

6N	3W	7			NW	SE	Payette	Ground Water	Existing pod

6. GENERAL INFORMATION

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

See attached

- b. Who owns the property at the point(s) of diversion? Applicants

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

- c. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- ☐ ☒ undergone a period of five or more consecutive years of non-use,
☐ ☒ currently leased to the Water Supply Bank,
☐ ☒ currently used in a mitigation plan limiting the use of water under the right(s), or
☐ ☒ currently enrolled in a Federal set-aside program limiting the use of water under the right(s)?

If yes, describe _____

7. MAP – ☒ Attach a map of the diversion, measurement, control and distribution system. Clearly label the map with township, range, section and ¼ ¼ of section information. The *Map Tool*, available at <http://maps.idwr.idaho.gov/TransferApplicationLayouts/> provides a satisfactory template for creating the required map.

8. SIGNATURE - The information in this application is true to the best of my knowledge. I understand any willful misrepresentations in this application may result in rejection of the application or cancellation of an approval.

6. General Information, Part A.

Currently, the ground water diversion system consists of one well in Section 7 in the Boise River drainage represented by water rights subject to this transfer application and one well in Section 18 in the Payette River drainage system represented by water right 65-13933.

The existing well in Section 7 is a 16-inch well equipped with two pumps; a 7.5 hp pump and a 200 hp pump. The proposed well will be drilled within 100 feet of the existing well, will likely be equipped with the 7.5 hp pump from the existing well and will be interconnected to the existing distribution system.

Flow measurement and lockable controlling works will be installed upon Department's request.

Conditions of Approval:

1. 071 The domestic use authorized under this right shall not exceed 13,000 gallons per day per home.
2. The irrigation occurring under this domestic use shall not exceed 1/2 acre for each home.
3. 132 Domestic use is for two homes. Irrigation of lawn, garden and landscaping associated with the homes is authorized under the irrigation component of this right.
4. 103 When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.

Page _____ of _____

Conditions of Approval:

1. X27 This right is limited to the irrigation of 200 acres within the place of use described above in a single irrigation season.
2. X35 The irrigation components of rights 65-13933 and 63-31261 when combined shall not exceed a total diversion rate of 7.82 cfs, a total annual maximum diversion volume of 1759.5 af at the field headgate, and the irrigation of 391 acres.
3. 105 A portion of the groundwater designated for irrigation use under this license is supplemental to existing surface water. In the area of overlap between groundwater rights associated with this license and existing surface water rights, if the surface water right(s) appurtenant to the place of use is abandoned, forfeited, sold, transferred, leased or used on any other place of use, this right to divert ground water shall not be used for irrigation purposes without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
4. 01M After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.
5. 065 A portion of the groundwater designated for irrigation use under this license is supplemental to existing surface water. In the area of overlap between groundwater rights associated with this license and existing surface water rights, the right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under this right. The right holder shall limit the diversion of ground water under this right to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.
6. R60 This right when combined with all other rights shall provide no more than 4.5 afa per acre at the field headgate for irrigation of the lands above.
7. 103 When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.
8. Commercial use is for dust abatement and shall not exceed a total annual volume of 3.4 af.
9. WB7 This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor exceed a combined annual maximum diversion volume of 1759.5 af at the field headgate for irrigation of the lands above.

Subject: *Application for Transfer, Water Rights 63-12569, 63-31261*

Dear Steve,

Enclosed, on behalf of Dan and Karen Hansen, is an Application for Transfer to add a new well to the Hansen's ground water distribution system. Since the proposed well will be drilled in the Boise River drainage, only the Hansen's Basin 63 water rights are subject to the transfer application. Associated water right 65-13933 for the irrigation well located in the Payette River drainage is not affected.

Check Nos. 14694 and 6296, each for \$410, are enclosed for the \$820 filing fee.

Please let me know if there are any questions. Thanks Steve.

Sincerely,

Lori Graves
Water Rights Specialist
