Michele,

I apologize I did forget to send that shape. Zach Latham is the person who created these shapes at Chuck Sr. request incase you have further question on them. The Place of Use shape if the heating POU.

Thanks,

Amy

Ms. Runser,
I would appreciate some additional help from you for this water right.

This right has two uses recommended by Dr. Brockway (Sr). Those uses are heating and recreation. All of this water right takes place within a H.E.S. and the H.E.S. can be treated like a large gov't lot. So the PLS addressing is for database reference only. Although the PLS locations for the shapes may not be recognized as the official location, I would prefer to use true copies of the shapes Dr. Brockway recommended.

I can import the snowmelt shape just fine. And I could add more territory to that shape to cover the residences and complete the heating shape for this water right. I would prefer not to do that. I would prefer to have a heating shape to cover both the snow melting and the space heating.

There is no recreation.shp in the 9 files you sent me. That may have been a simple oversight. I know it's a small pool/spa and I could make another attempt to represent it with a created shape of my own. I would prefer not to do that either.

I would prefer to use shape files created by your office and eliminate the possibility of my shapes being an issue in this case.

Please let me know how soon you can accommodate this request. I am typing up the licensing review memo and had hoped to finish processing this file this week.

Respectfully,
Michele Edl
