

MEMORANDUM

Date: October 27, 2010
To: Water Right File 36-8729
From: shemenway
Re: Changes to POU

Dave Shaw ERO Resources Inc., came in today, and stated the 36-8729 POU does not include any of the ponds that start in section 34 and cross over into section 27. He stated that the Hunt Ditch pump does not lift Riley Creek water high enough to reach the ponds in question. That these ponds are served by the South Pipeline. (see 10/27/2010 email and map indicated ponds to remove). Water rights 36-8728 and 36-8730 cover those ponds though.
