Subject: RE: Buckeye Farms`

Kay,

Let Simpson know that if there is evidence that they have diverted and beneficially used the permitted rate during the authorized development period, then it should be recognized on the licenses. Otherwise, it cannot be included on the license. We can discuss it if you want.

Subject: Buckeye Farms`

Hi, Shelley... John Simpson called me this morning about the licenses for Buckeye. He has the amendments in his possession and will turn them in after we respond to this: Buckeye wants the full permitted amount of water during the non-irrigation season. They concur with the limitation during irrigation season but wonder why they can't have full amounts during non-irrigation season. I told him I would discuss with you and get back to him. He said he could come in for a brief meeting on Monday morning if we want. Sure would make these rights complicated to have different amounts for different times of the year... What do you think? Can we discuss? Kay
