Gentlemen:

We have reviewed the information submitted in connection with the permits diverted from Hunt Ditch and have revised the licensing amendment for Permit 36-07741. I have attached the revised amendment for your review and signature if you agree with the changes.

We now propose to license Permit 36-07741 for 24.0 cfs during the non-irrigation season, and 22.45 cfs during the irrigation season. We have changed the conditions of approval to clarify these changes – see condition nos. 3 and 4 on the second page of the amendment form. We have also revised the maximum diversion volume under this right, showing 2 separate volumes for the 2 seasons of use. Please note that we will be adjusting the conditions on the proposed license for 36-08729 once we have received the signed amendment for 36-07741.

We would like to get the licenses for Buckeye Farms issued right away, so we are faxing this information to each of you. If you are in agreement with the proposed changes, please sign the amendment form and return the signed form to us through the mail, so that we have a signed form for our file. Please note that the amendment fee for this form was receipted along with your other amendments submitted on May 10th.

If you have any questions in regard to the changes we have made, please feel free to contact me at (208)327-7944.

Sincerely,

KAY WALKER
