I got the original 95-9055 Exam and proof. I will work on this in the next 30 days. Thanks for your help.

Subject: Proof and Field Exam for 95-9055

Hey guys,

Looks like SPF submitted proof along with a field examination report for 95-9055. You guys were sent the original and we got a copy for good measure. I am just wondering if you guys are going to review and issue license since you have the original documents or if we should do it down here.

If you want to do it, great. Just let me know and I will either toss this copy or at least note that you are handling it from up there. If you want the S.O. to review and issue the license, that is just fine too, just let me know and send me the original docs down when you get a chance.

Right now, since you have the original, I am assuming you are handling it up there. That is the only way I can think of to prevent us duplicating work when copies of these things are sent to both offices.

Thanks,

Craig
