Twin Falls, ID 83301-3380

Subj: Water Rights Issues, 15 Rural Residential Subdivision
Parcel No. P005070000020, Serendipity Acres Sub Lot 2,
106 Horseshoe Circle, Blaine County, Idaho

References/Related Documentation: Transfer No. 72125, Right 37-20452 (as modified by
Transfer No. 72125 for previous Water Right Permit 37-7603), Permit to Appropriate Water
No. 37-22163, Water Right No. 37-20452

Issues to be discussed/clarified as requested by William K. And/Or Gayle M. Sullivan are:
Compliance with Beneficial Use Requirements and Conjunctive Water Rights rules.

1. Water usage to date on property has involved the following actions/enhancements:

- Installation of well at 103 ft. yielding 60 gal. per minute
- Construction of 8 ft. x 12 ft. pump shed adjacent to well head
- Installation of two 50 gal. water holding tanks inside the pump shed
- Installation of above ground faucet adjacent to the pump shed
- Installation of below ground water stub lines from pump shed toward building envelope
- Use of above ground portable water lines for irrigating property
- Watering garden for raising home grown vegetables for owners consumption
- Watering temporary grazing area for neighbor's horses.

*Determination of a need for installation of cistern as water holding tank for fire fighting purposes is pending

2. Additional property enhancements are as follows:

-Installation of a electrical feeder line from the Subdivision transformer to a property centralized meter station mounted on the side of the pump shed. From the meter station the line is then connected to a circuit breaker panel installed inside the pump shed which feeds power to the well pump, the pump shed lights, two small electric heaters inside the pump shed and eventually the residence.

-A 220 ft extension of natural gas feeder line from it's previous terminus to the property line.

3. If forthcoming Conjunctive Water Rights measures are applicable to Sullivan Water Rights then information regarding the impact of these measures is hereby requested.

Very Respectfully: William K. Sullivan and Gayle M Sullivan
