Re: Boyd Harms Transfer
1097-01-2010

RECEIVED

JUN 09 2011

DEPT. OF WATER RESOURCES
SOUTHERN REGION

Dear Mr. Mills:

It is necessary to withdraw a previous transfer application submitted on behalf of Boyd Harms involving water rights 36-2665A, 36-7817, 36-7877, 36-16203 and 36-16731. Two new applications are being submitted that will form two irrigation systems with water rights 36-2665A, 36-7817, 36-7877, 36-16203 and 36-16731. Please apply the fee of \$650.00 that was submitted with the original transfer application to the processing fees (\$450.00 and \$490.00) of the two new applications. An additional check for \$290.00 will be submitted with the new applications.

The first application is to form the 307.6 acre North System and will be utilizing one existing irrigation well (Well 4) and water shares from the North Side Canal Company. The North System is also enrolled in the AWEPP program. It is proposed that water rights 36-16731, 36-7817 and 36-7877 will provide 5.04/1114 cfs/afa of ground water for 278.6 acres. The remaining 29.0 acre within the PPU will be irrigated with water shares from the North Side Canal Company.

The second application is to form a 387.5 acre South System and will be utilizing three existing irrigation wells (Wells 1, 2, 3) and provide 6.57/1547 cfs/afa of ground water. No water from the North Side Canal Company will be applied to this system. Water to the South System will be provided by 36-2665A, 36-16203 and 36-16731.

The period of use and beneficial use for all water rights will remain unchanged. The ownership of the water rights will remain in the name of Boyd Harms at this time. The North System and South System are currently leased by Joe and Kay Holts with the option to buy the entire farm.
