Cindy,

In researching Boyd Harms 30 shares of NSCC water, I have found that Mr. Harms permanently transferred his water off in the year 1967. Kay & Joseph Hults have seasonally put 104 shares to the Harms h/g: 59-W in May 2011. Part of this water is for mitigation use, if you have any questions, feel free to call me at (208) 324-2319.

Regards,

Terry Walters
